# URBAN ROADS PROGRAM

## **Fiscal Year (FY) 2025 Solicitation Project Submittal**

The urban Roads Program is for urban roads (population over 5,000) owned by local public agencies but on the federal aid system. NDDOT and local public agencies work together to program improvements based upon availability of funding as administered through the State. There is a yearly solicitation for the Urban Roads Program through NDDOT.

# Policy Direction

## 23 CFR 450.306

(b)(8) “Emphasize the preservation of the existing transportation system”

## Preservation and Maintenance

**Goal Area:** Transportation Infrastructure

**Policy Objective:** Prioritize investments in our roadway network that preserve and maintain existing facilities rather than the construction of new ones.

### Preservation and Maintenance Policies

- Preserving and maintaining our existing network takes a higher priority than expanding the network.
- Maintenance of roadways is essential to safe bicycling on roadways, and therefore encourages non-motorized transportation.
- Our region looks for ways to improve corridors from a multi-modal perspective when planning and implementing rehabilitation and reconstruction projects.

## Projects Slightly Different From the MTP

- 9<sup>th</sup> St NE from Main Ave E to 12<sup>th</sup> Ave NE (West Fargo)
- 9<sup>th</sup> St E/Veteran's Blvd from 13<sup>th</sup> Ave E to 40<sup>th</sup> Ave E (West Fargo)

- 45<sup>th</sup> St from 16<sup>th</sup> Ave N to 32<sup>nd</sup> Ave S, Main Ave from 25<sup>th</sup> St to 45<sup>th</sup> St, and 7<sup>th</sup> Ave N from 25<sup>th</sup> St to I-29 (Fargo)

# Policy Direction

## 23 CFR 450.306

(b)(6) “Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight”

## Walking and Bicycling

**Goal Area:** Walking and Bicycling

**Policy Objective:** Promote bicycling and pedestrian facilities in future roadway developments and encourage non-motorized transport connections within all FM Metro COG jurisdictions.

### Walking and Biking Policies

- Bicycle and pedestrian facilities shall be considered of equal importance as vehicular mobility when studying metropolitan area roadway corridors, and as part of subsequent environmental review, design, and on-going maintenance. Complete Streets is the accepted policy for all local, collector, and arterial roadways with the exception of interstate highways.
