THE PLAN

The Fargo - Moorhead Metropolitan Council of Governments is in the process of updating its Long Range Transportation Plan called Metro Grow, which will help shape our transportation future through the year 2045. The plan will be developed to meet our community's goals, needs, and priorities for all modes of travel.

THE GOAL

Metro Grow will take a multimodal approach to our transportation system as we consider potential future investments in the roadway, transit, bicycle, pedestrian and freight systems for the region. We must also balance the preservation of our existing streets, highways, sidewalks and trails with expanding the system through new construction.

Public involvement opportunities will continue through 2019. Public and/or online meetings will occur during the following phases.
