Ms. Bommelman moved, seconded by Mr. Steinhoff

MOTION, PASSED

Motion carried unanimously.

4. Public Comment Opportunity

No public comments were made or received.

5. TTC Bylaw Amendment

Mr. Griffith reported that MATBUS has been designated as a “large urban” transit agency by Federal Transit Administration; therefore, Fargo and Moorhead transit agencies are being restructured into a single organization with the City of Fargo being the dedicated recipient. MATBUS members asked if the TTC Bylaws could be revised to include two representatives because of the changes to the structure of transit. After legal counsel review, changes were made to the Bylaws.

Motion: Recommend approval of proposed amendment to the TTC Bylaws regarding MATBUS representation on the TTC to the Policy Board

Ms. Bommelman moved, seconded by Mr. Hutchings

MOTION, PASSED

Motion carried unanimously.

6. 8th Avenue Extension Study

Mr. Maddox introduced Brent Muscha with Apex Engineering. Mr. Muscha presented the information for the 8th Avenue Extension Study project. 8th Avenue North was identified as a corridor to make regional connections as an alternative to TH10. UPWP Amendment #5 had included this study

using unspent 2023CPG funds. Apex Engineering completed the study, and it was presented to the City of Dilworth on January 27, 2025.

The study included plans for the extension of 8th Avenue North, analysis of surrounding land uses, and community engagement. With in-person and virtual engagements, many residents were able to provide their input.

The following was summarized at the end of the study:

- Street/Intersections
 - Control Access
 - 2-Lane Undivided – Residential
 - 2-Lane with Median – Parkway
 - 34th St Walmart Improvements
 - Main Street Connection
- Alignment
 - Northernmost – Park Access/School Use
 - Central – Utilize Existing Utility Corridor
 - Southernmost – Maximize Parcel Flexibility
- Phasing
 - Developer Led vs City Led
 - Reevaluate with Each Phase

Ms. Sperry asked if any comments were received regarding the final report, and Mr. Maddox responded that none had been received.

Motion: Recommend Policy Board approval of the Dilworth 8th Avenue Extension Study

Mr. Gorden moved, seconded by Mr. Nelson

MOTION, PASSED

Motion carried unanimously.

7. 15th Avenue Corridor Study

Mr. Maddox introduced Scott Middaugh with KLJ Engineering. Mr. Middaugh presented information for the 15th Avenue North project. 15th Avenue North was identified as a corridor to make regional connections as an alternative to TH10, particularly if a three-lane option were to be selected. UPWP Amendment #4 had included this study using unspent 2023 CPG funds. KLJ Engineering completed the study and presented it to the Dilworth Planning Commission on February 5, 2025.

Three types of traffic volume added to the corridor:

- Background growth rate
- Land use changes
- Traffic diversion from I-94, US 10, and 28th Avenue

The study was coordinated with the Heartland Trail study, since a portion of the proposed trail could parallel 15th Avenue in the future.

The public input meeting was held on November 21, 2024. Next steps would be to develop and execute a memorandum of understanding with the Townships, Clay County, and the City of Dilworth.

Ms. Sperry asked if any comments were received regarding the final report, and Mr. Maddox responded that none had been received.

Motion: Recommend Policy Board approval of the final report of the 15th Avenue North Corridor Study
Mr. Steinhoff moved, seconded by Mr. McCamy
MOTION, PASSED
Motion carried unanimously

8. Performance Measures

a. Performance Measure 1 – Highway Safety MN and ND

Ms. Pavcek presented information regarding the Highway Safety performance measures for both Minnesota and North Dakota. The following is used to calculate safety: Number of fatalities, Fatality rate per 100 million VMT, Number of serious injuries, Serious injury rate per 100 million VMT, Non-motorized (walking/biking) fatalities and serious injuries.

A percentage of the population is used to calculate a common factor to compare state comparison with our regional MPO. FM Metro COG is 2.35% of the total Minnesota Population and 26.94% of the total North Dakota Population. Metro COG's numbers are within MnDOT and NDDOT targets for 2025.

Motion: Recommend to the Policy Board to support Minnesota and North Dakota's 2025 Highway Safety Performance Measures.
Mr. Gorden moved, seconded by Ms. Bommelman
MOTION, PASSED

Ms. Pavek presented information regarding the Bridge and Pavement performance measures for both Minnesota and North Dakota. We are currently in the Mid-performance period progress report of 2023 for the performance period of 2022-2026.

MPOs may choose to either support state targets or set their own targets based on specific MPO targets for both Minnesota and North Dakota.

Three bridges classified as poor condition were discussed as one was built in 1939 and the other two in 1968. Classified as poor does not mean they are not safe.

Motion: Recommend to the Policy Board to support Minnesota and North Dakota's Pavement and Bridge Condition Performance Measure Targets.

DRAFT

To: Transportation Technical Committee
From: Michael Maddox, AICP
Date: April 4, 2025
Re: **2050 Metropolitan Transportation Plan Approval**

Metro COG has been working with FHWA-ND, FHWA-MN, FTA Region 8, NDDOT, and MnDOT to address comments and concerns over the MTP that was presented in Fall 2024. After much coordination between Metro COG and its aforementioned oversight agencies, Metro COG has developed a revised draft of its updated Metropolitan Transportation Plan (MTP) entitled Metro 2050: Transportation Moving Ahead.

This new draft includes enhanced sections describing environmental mitigation efforts, performance measurement, MATBUS projects, and linkage between the MTP and the Congestion Management Process (CMP). However, no significant changes have been made to the core of the document e.g. the policy direction, goals & objectives, projects, or fiscal constraint.

Metro COG opened a public comment period on April 2nd to solicit feedback on the updated draft MTP. This public comment period is open until April 16th. A public meeting will be held at the Policy Board meeting on April 17th to give an opportunity for in-person comments.

Metro COG previously opened a 30-day public comment period in December which concluded on January 16, 2025. A public meeting which was held on January 9th at the Downtown Fargo Public Library. One person attended this meeting, but no formal public comment was received at that time.

The updated Metro 2050 MTP may be found on Metro COG's at:
<https://www.fmmetrocog.org/Metro2050>

Recommended Action: Recommend approval of the 2050 Metropolitan Transportation Plan to the Policy Board.

Re: **2025 Bicycle and Pedestrian Count Report**

Metro COG compiles the data from both the manual counts and automated counters and develops the Count Report. The purpose of this report is to provide data regarding local bicycle and pedestrian activity to the public, elected officials, interested persons, parks departments, local planners and engineers, and more. This information also informs Metro COG of bicycle and pedestrian usage throughout the planning area. In some cases, the data is thorough and on-going, due to the use of counting equipment installed along the facility. In other cases, the data is simply a snapshot of a certain day of the year. Guidance is utilized from the National Bicycle and Pedestrian Documentation Project (www.bikepeddocumentation.org) when counting bicycle and pedestrian traffic.

The 2025 Bicycle and Pedestrian Count Report is found on the FM Metro COG **Metropolitan Bicycle and Pedestrian Committee website** under the "**Committee Resources**" section. Or at the following link:
