13. Agency Updates

a. City of Fargo

b. City of Moorhead

12. Additions of Transit Appendix to 2050 MTP

c. City of West Fargo

d. City of Dilworth

e. City of Horacef. Cass County

g. Clay County

h. Other Member Jurisdictions

14. Additional Business

15. Adjourn

REMINDER: The next TTC meeting will be held Thursday, January 09, 2025 at 10:00 AM.

Metro COG is encouraging citizens to provide their comments on agenda items via email to <a href="mailto:brumbaugh@fmmetrocog.org">brumbaugh@fmmetrocog.org</a>. To ensure your comments are received prior to the meeting, please submit them by 8:00 AM on the day of the meeting and reference which agenda item your comments address. If you would like to appear via video or audio link for comments or questions on a regular agenda or public hearing item, please provide your e-mail address and contact information to the above e-mail at least one business day before the meeting.

For Public Participation, please REGISTER with the following link: <a href="https://us02web.zoom.us/webinar/register/WN">https://us02web.zoom.us/webinar/register/WN</a> dISd4WBsS1Kb6foN0Sdv5A

**Bolded** Action Items require roll call votes.

NOTE: Full Agenda packets can be found on the Metro COG Web Site at <a href="http://www.fmmetrocog.org">http://www.fmmetrocog.org</a> - Committees

Metro COG is committed to ensuring all individuals, regardless of race, color, sex, age, national origin, disability/handicap, sexual orientation, and/or income status have access to Metro COG's programs and services. Meeting facilities will be accessible to mobility impaired individuals. Metro COG will make a good faith effort to accommodate requests for translation services for meeting proceedings and related materials. Please contact Angela Brumbaugh at 701-532-5100 at least five days in advance of the meeting if any special accommodations are required for any member of the public to be able to participate in the meeting.

#### 560<sup>th</sup> Meeting of the FM Metro COG Transportation Technical Committee Thursday, November 14, 2024 – 10:00 AM Metro COG Conference Room

Maegin Elshaug City of Fargo Planning (Alt. for Nicole Crutchfield)

Jeremy Gorden City of Fargo Transportation Engineering

Ben Griffith Metro COG

Cole Hansen Cass County Planning

Jace Hellman City of Horace – Community Development Director Forrest Steinhoff City of Moorhead Planning (Alt. for Robin Huston)

Don Lorsung City of Dilworth Community Development

Kyle McCamy City of West Fargo Engineering

Sarah Orr Concordia College

Aaron Nelson West Fargo City Planning

Joe Raso GFMEDC

Mary Safgren MnDOT – District 4

Tom Soucy Cass County Highway (Alt. for Jason Benson)

Jordan Smith MATBUS

Brit Stevens NDSU – Transportation Manager

Tom Trowbridge City of Moorhead

Andrew Wrucke City of West Fargo Engineering

Wayne Zacher NDDOT – Local Government Division

#### **Members Absent:**

Jason Benson Cass County Highway Engineer (Alternate present)

Nicole Crutchfield City of Fargo Planning (Alternate present)

Robin Huston City of Moorhead Planning (Alternate present)

Matthew Jacobson Clay County Planning

Kelly Krapu Freight Representative - TrueNorth Compliance Service

Justin Sorum Clay County Engineering
Lori Van Beek City of Moorhead, MATBUS

#### Others Present:

Adam	Altenburg	Metro COG
Paul	Bervik	Metro COG
Karissa	Beierle Pavek	Metro COG
Angela	Brumbaugh	Metro COG
Dan	Farnsworth	Metro COG
Aiden	Jung	Metro COG
Michael	Maddox	Metro COG
Mackenzie	Mueller	Metro COG

Will Hutchings NDDOT - Local Government Division
Jonathan Atkins City of Moorhead Traffic Engineering

Luke Champa SRF Consulting Group

Dylan Dunn Moore Engineering

#### 1. CALL TO ORDER AND INTRODUCTIONS

The meeting was called to order at 10:00 am, on November 14, 2024 by Chair Griffith. A quorum was present.

#### 2. Approve the 560th TTC Meeting Agenda

Chair Griffith asked if there were any questions or changes to the November 14, 2024 TTC Meeting Agenda.

Motion: Approve the November 14, 2024 TTC Meeting Agenda.

Ms. Bommelman moved, seconded by Mr. Trowbridge.

MOTION, PASSED.

Motion carried unanimously.

#### 3. APPROVE October 10, 2024 TTC MEETING MINUTES

Chair Griffith asked if there were any questions or changes regarding the October 10, 2024 TTC Meeting Minutes.

Motion: Approve the October 10, 2024 TTC Minutes. Mr. Trowbridge moved, seconded by Mr. Lorsung.

MOTION, PASSED

Motion carried unanimously.

#### 4. Public Comment Opportunity

No public comments were provided or received.

#### 5. 2024-2027 Transportation Improvement Program (TIP) Amendment 12

Mr. Bervik presented Amendment 12 regarding the 2024-2027 Transportation Improvement Program (TIP). A public notice was published on Wednesday, October 30, 2024, and comments accepted until 12:00 noon on Thursday, November 14, 2024. As of the date of the memo, no comments were received.

The proposed Amendment to the 2024-2027 TIP is as follows:

- 1. **Modification of Project 9220039:** NDDOT installation of high-tension cable median guardrail (2026). Moving the project year from 2024 to 2026.
- 2. **Modification of Project 9210005:** NDDOT installation of high-tension cable median guardrail (2026). Moving the project year from 2025 to 2026.
- 3. **Modification of Project 9231004:** NDDOT revising signals within West Fargo (2025). Updating Project Cost.
- 4. **Modification of Project 9240052:** NDDOT removing negative left turn offsets at various locations (2025). Updating Project Cost.
- 5. **New Project 0247073:** Metro COG flexing STBG funding to Metro COG Planning (2025).
- 6. **New Project 9242074:** NDDOT pavement marking at various locations throughout the Fargo District (2025).

Motion: Recommend approval of Amendment 12 of the Metro COG 2024-2027 Transportation Improvement Program (TIP) to the Policy Board.
Mr. Trowbridge moved, seconded by Mr. Gorden.
MOTION, PASSED
Motion carried unanimously.

6. 2025-2028 Transportation Improvement Program (TIP) Amendment 1
Mr. Bervik presented Amendment 1 regarding the 2025-2028 Transportation
Improvement Program (TIP). A public notice was published on Wednesday,
October 30, 2024, and comments accepted until 12:00 noon on Thursday,
November 14, 2024. As of the date of the memo, no comments were received.

The proposed amendment to the 2025-2028 TIP is as follows:

- 1. **Modification of Project 9231004:** NDDOT revising signals within West Fargo (2025). Updating Project Cost.
- 2. **Modification of Project 9240052:** NDDOT removing negative left turn offsets at various locations (2025). Updating Project Cost.
- 3. **Modification of Project 9210005:** NDDOT installation of high-tension cable median guardrail (2026). Moving the project year from 2025 to 2026.
- 4. **Modification of Project 9220039:** NDDOT installation of high-tension cable median guardrail (2026). Moving the project year from 2024 to 2026.
- 5. **New Project 0247073:** Metro COG flexing STBG funding to Metro COG Planning (2025).
- 6. **New Project 9242074:** NDDOT pavement marking at various locations throughout the Fargo District (2025).

Motion: Recommend approval of Amendment 1 of the Metro COG 2025-2028 Transportation Improvement Program (TIP) to the Policy Board contingent upon approval of the 2025-2028 TIP.

Mr. Gorden moved, seconded by Mr. McCamy.

MOTION, PASSED

Motion carried unanimously.

#### 7. 2024 Metro Profile

A recorded power point was presented showing the latest details for the Metropolitan profile for 2024. The report is divided into five sections:

- Community Profile
  - o The population has increased by 3,957 for a total of 262,620.
  - Horace has the fastest growing population
  - Unemployment rate as of 2022 is 1.81% which is less than the United States (3.63%)
  - o 10.2% work from home compared to 13.8% of the U.S.
- Roadways
  - o Vehicle miles have increased by 5%
  - o There were 60 TIP projects in 2023 with a total cost of \$86,065,822
- Freight
  - o Amtrak station ridership for 2023 was 17,545 an increase of 19.17%
- Bike & Pedestrian
  - o There is 253 miles of bikeway paths
  - University Drive has the largest hourly pedestrian counts
- Transit
  - o There were 1,295,317 MATBUS passengers in 2023

Motion: Recommend Policy Board approval of the 2024 Metropolitan Profile.

Mr. Trowbridge moved, seconded by Mr. Lorsung. MOTION, PASSED

Motion carried unanimously.

#### 8. Regional Comprehensive Safety Action Plan (SS4A) Final Report

Mr. Altenburg stated SS4A is the first safety action plan aimed at reducing and eliminating serious injuries and fatalities on the region's transportation network.

Mr. Champa of SRF presented the information for the Comprehensive Safety Action Plan explaining the plan is intended to provide Metro COG and local jurisdictions with strategies to address safety risks on the roadway network using analyses of historic crash information. The plan establishes a vision of 55 % reduction of fatalities on roadways by 2040 and will be measured annually beginning in 2025.

In the spring of 2025 Metro COG will be able to apply for grants with the US DOT. Typically, smaller projects under \$10 million are more successful than larger projects. A narrative about fatal and serious injuries would need to be included. Mr. Zacher stated NDDOT needs to approve it before it can go to the next step.

Mr. Trowbridge stated the plan has a lot of implementations, but the plan does not call out any specific projects. Mr. Champa responded that at the regional level that is the outcome, and the jurisdictions can do their analysis.

Mr. Atkins questioned, as Fargo and West Fargo start tackling some of the areas does the High Injury Network get adjusted for other areas to help get funding for them also. Mr. Champa stated the US DOT wants the update completed annually. It can be accomplished with the Metro Profile. Mr. Lorsung stated a statement could be added regarding it will be done annually. Mr. Altenburg stated it may be a good idea to enlist the GIS committee.

Motion: Recommend Policy Board approval of the Regional Comprehensive Safety Action Plan with the inclusion of an updated map and SS4A eligible map.

Mr. Trowbridge moved, seconded by Ms. Elshaug

MOTION, PASSED

Motion carried unanimously.

#### 9. EV Readiness Study Final Report

Mr. Altenburg presented the Electric Vehicle Readiness Study. The study is aimed at providing clarity and direction for increased EV adoption in the region.

The study was done with the assistance of HDR. A working group was developed and area utility companies were involved. By 2035, there will be between 11,000 and 18,000 electric vehicles and between 1600 and 1900 public chargers in our community. Strategy workshops focused more on community charging.

DOTs are tracking EV Registrations and EVSE installations. Mr. Hutchings stated that per ND state statute charging areas are not for parking. Ms. Safgren stated there are funding grants, with the application period starting October 14<sup>th</sup> and closing January 3<sup>rd</sup>.

Motion: Recommend Policy Board approval of the EV Readiness Study Ms. Bommelman moved, seconded by Mr. Steinhoff. MOTION, PASSED Motion carried unanimously.

#### 10. Fargo Transportation Plan (FTP)

Mr. Maddox presented the Fargo Transportation Plan. He stated the first FTP study started in 2021. The Fargo City Commission received it last month and approved the adoption.

The plan is comprised of four different areas and guides how the infrastructure is completed. The plan takes policy and information from other plans and combines it into one, including road infrastructure, land use, and bicycle needs.

Motion: Recommend Policy Board approval of the Final Fargo Transportation Plan. Mr. Gordon moved, seconded by Mr. Trowbridge. MOTION, PASSED Motion carried unanimously

#### 11. Agency Updates

- a. NDDOT Will Hutchings will be our new NDDOT representative
- b. MnDOT 2025-2028 STIP plan is approved and open
- c. Dilworth Planning Two open houses next week for the 8<sup>th</sup> Avenue and 15<sup>th</sup> Avenue Studies

#### 12. Additional Business

Mr. Griffith welcomed new Concordia College representative Sarah Orr who was attending her first TTC meeting in person. He reminded everyone that TA applications are due tomorrow. He also noted that Chelsea Levorsen was leaving Metro COG to take a planning position with the City of Fargo.

#### 13. Adjourn

The 560<sup>th</sup> Regular Meeting of the TTC was adjourned on November 14, 2024 at 11:50 AM.

Mr. Atkinson moved to Adjourn; Mr. Trowbridge seconded

THE NEXT FM METRO COG TRANSPORTATION TECHNICAL COMMITTEE MEETING WILL BE HELD DECEMBER 12, 2024, 10:00 AM.

Respectfully Submitted,

Angela Brumbaugh Office Manager

Case Plaza Suite 232 | One 2nd Street North Fargo, North Dakota 58102-4807 p: 701.532.5100 | f: 701.232.5043 e: metrocog@fmmetrocog.org www.fmmetrocog.org

**To:** Transportation Technical Committee

Re: Minnesota EV Infrastructure Needs Assessment (MnEVINA)

The Minnesota Electric Vehicle Infrastructure Needs Assessment (MnEVINA) will identify priority areas for EV charging infrastructure throughout Minnesota. Part of the federal Bipartisan Infrastructure Law provides funds for states to install fast chargers for EVs. The State of Minnesota expects to invest about \$68 million from this federal program over five years. These investments will be led in part by the opinions and needs of passenger vehicle drivers throughout the state.

Beth Kallestad, Principal Sustainability Planner from MnDOT's Office of Sustainability and Public Health, will present more information on this program at the TTC meeting.

More information can be found at the link below:

https://talk.dot.state.mn.us/mnevina

**Requested Action:** None – information only.

Re: 2025-2028 Transportation Improvement Program (TIP) Amendment 2

The Fargo-Moorhead Metropolitan Council of Governments (Metro COG) will hold a public meeting both in person and via Zoom Video Communications on Thursday, December 12, 2024 at 10:00 AM to consider public comments regarding a proposed amendment to the 2025-2028 Transportation Improvement Program (TIP) for the FM Metropolitan Area. The proposed amendment to the 2025-2028 TIP reflects modified federally funded projects within the Metropolitan Planning Area (MPA).

A public notice was published in the Forum of Fargo-Moorhead on Wednesday, November 27, 2024, which advertised the public meeting, detailed how to request more information, and provided information on how to make public comments regarding the proposed amendment. The public notice advertised that public comments will be accepted until 12:00 noon on Thursday, December 12, 2024. As of the writing of this memo, no written comments have been received.

The proposed amendment to the 2025-2028 TIP is as follows:

- 1. **Modification of Project 5250035:** Moorhead MATBUS purchase of one (1) class 400 bus and related equipment (2025). Update funding source.
- 2. New Project 8251043: MnDOT districtwide guard rail installation. (2025)
- New Project 8251044: MnDOT installation of a NEVI charging station along I-94. (2025)

See Attachment 1 for more detailed project information.

**Requested Action:** Recommend approval of Amendment 2 of the Metro COG 2025-2028 Transportation Improvement Program (TIP) to the Policy Board.

Re: MnDOT Federal Functional Classification Update

The City of Moorhead initiated a request to upgrade the Federal Functional Classification of 40<sup>th</sup> Avenue S. FM Metro COG conducted an initial review of the system in the area and determined that upgrades were justified. These changes will complement the process of reviewing the Federal Functional Classification of the Minnesota portion of our Adjusted Urbanized Area Boundary (AZUA) that will occur in the following months. Reviewing the entirety of our AZUA Federal Functional Classification is a substantial undertaking. Due to this reason, the request to update the segment of the roadway prior to the completion of FM Metro COG's review is warranted.

As with the other parts of the FM Area, South Moorhead has undergone population growth and significant housing development. The speed limit of 40<sup>th</sup> Avenue S is 40 mph, and the ADT is over 3,000. Restricted access to neighborhoods in turn creates less traffic friction and increases mobility of the roadway. The Moorhead Soccer Complex, other parks and SGR contribute to the community using this roadway as a significant portion of their daily trips. The road is also a section line road connecting Highway 75 to Highway 52. With FM Metro COG being the primary contact for processing local requests to the Federal Functional Classification System we recommend the following changes on behalf of The City of Moorhead:

Table 1

Change	Road Name	Segment	Proposed FFC
1	40 <sup>th</sup> Ave S	From 16th St S to 28th St S	Major Collector
2	40 <sup>th</sup> Ave S	From 28th St S to 40th St S	Major Collector
3	40th St S	From 40 <sup>th</sup> Ave S to 34 <sup>th</sup> St S	Major Collector
4	34 <sup>th</sup> Ave S	From 40 <sup>th</sup> St S to Hwy 52	Major Collector

**Requested Action:** Recommend Policy Board approval of the 2024 MnDOT Federal Functional Classification update.

#### Date Request Initiated: September 3, 2024

#### Local Government Requesting Change: The City of Moorhead

**Instructions:** Complete the following information for each roadway segment that requires a change in functional classification. Use additional sheets as necessary.

## Summary of Requested Changes:

For each request, summarize the change in functional classification mileage. Include miles added and miles deleted for each affected classification type.

Kimberlie.delarosa@state.mn.us)

Request #	Principal Arterial	Major Collector	Minor Collector	Local Road
1		0.625085	- 0.625085	
2		0.868831		- 0.868831
3		0.212793	- 0.212793	
4		0.128283	- 0.128283	
Total	0	1.834992	- 0.966161	- 0.868831

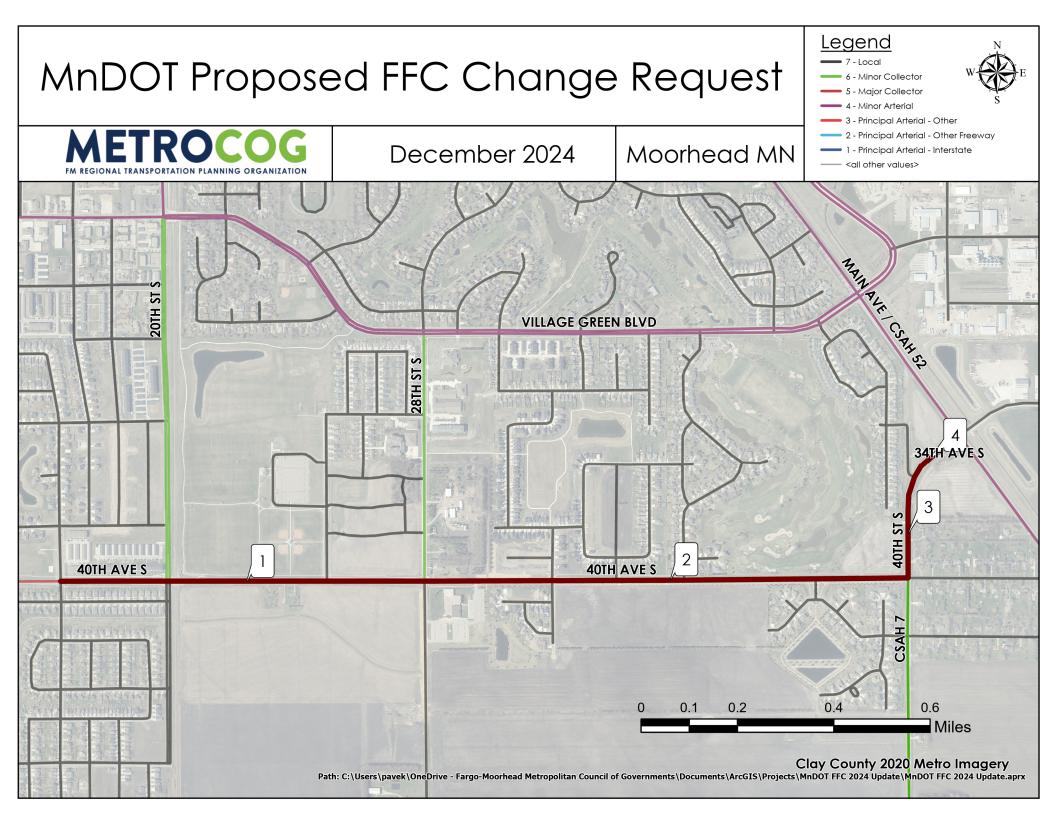

### Describe the impact of these changes on functional classification percentages in the jurisdiction and the plan for maintaining balance.

This change has no significant change to the overall percentages of the Federal Functional Classification System to this jurisdiction. The percentage of miles classified as Major Collectors increases from 10.98% to 11.50%. This is within the FHWA guidelines of 7-15%.

Re: Rural Transportation Alternatives Application

The Transportation Alternatives (TA) program is a federally funded grant opportunity for projects that provide enhancements to alternative means of transportation such as bicycle/walking trails, safe routes to school projects, crosswalk improvements, and more.

Applying jurisdictions within Metro COG's planning area are required to submit their applications to Metro COG. For rural applications (outside Metro COG's urbanized boundary) Metro COG reviews and submits applications to the respective state Departments of Transportation (DOTs). For urban projects (inside Metro COG's urbanized boundary) Metro COG scores, ranks, and awards projects internally. Metro COG will bring the urban projects to the TTC and Policy Board in January or February 2025.

Metro COG received a total of one rural TA application located on the ND side of Metro COG's planning area. Below is a description of the application along with the scoring of the application as scored by the Bicycle & Pedestrian Committee at the December 4<sup>th</sup> meeting. **Attached** is the scoring table showing the scoring of the application. Also, **attached** is the full application.

### Cass County (within City of Kindred) - County Road 15 Shared Use Path Score: 55 points

Cass County is seeking funding to reconstruct a shared use path along the east side of County Road 15 from Kindred Elementary School (Linden Street) to ND Highway 46. The total length of this path is approximately 1 mile. The existing path was originally constructed in 1998 and overlaid in 2006. Since 2006 there have been no improvement to this path. The existing facility is an 8-foot-wide asphalt path. This project would replace it with a 10-foot-wide concrete path. An RRFB (Rectangular Rapid Flashing Beacon) will be installed at 53<sup>rd</sup> Street SE. There is also an option for an installation of an RRFB at the Highway 46 crossing.

Cost: \$1,056,162 construction total; \$844,929.60 requested from TA

#### Requested Action:

Recommend approval of the attached Transportation Alternatives (TA) application and associated scoring to Policy Board prior to submittal to NDDOT.

#### **Subject:**

**TA Application** 

#### **Project Name:**

Cass County Road 15 Shared Use Path

#### **Project Location:**

The East Side of County Road 15, from Kindred to State Hwy 46

#### **Project Contact:**

Cass County Highway Department

#### **Contact Person:**

Kyle Litchy 1201 Main Ave West West Fargo, ND 58078 701-298-2380 litchyk@casscountynd.gov

#### **Project Sponsor:**

**Cass County Commission** 

#### **Sponsoring Official:**

Thomas Soucy, PE, County Engineer 1201 Main Ave West West Fargo, ND 58078 701-298-2370

#### **Project Description:**

Cass County Road 15 Shared Use Path is the planned reconstruction of an existing asphalt shared use path that is at the end of its life. The existing path connects State Highway 46 to Kindred Elementary School on the East side of Cass County Road 15. The existing path was originally constructed in 1998 and overlaid in 2006. Since 2006 there have been no improvements to this

#### **Highway Department**

Telephone: 701-298-2370 Fax: 701-298-2395 SMB-HWY@casscountynd.gov

path, and it is showing major deterioration which is starting to cause safety concerns from residents. There were also no ADA compliant ramps installed with the original construction.

The reconstruction will include removing existing 8' wide asphalt path and replacing along the same alignment with a 10' wide, 5" thick Concrete shared use path with ADA compliant ramps at intersections adjacent to Cass County Road 15, in Kindred ND. Along with the reconstruction we also plan to construct an RRFB pedestrian crossing on the south side of 53<sup>rd</sup> St SE. This crossing will provide needed accessibility and connectivity across Cass County Road 15 on the south end of town between other pedestrian facilities.

The Project runs North and South for approximately 5,500' along the east side of Cass County Road 15 from State Highway 46 (South) to the Kindred Elementary School (North). The North end of the project will connect into the existing sidewalk facilities throughout the City of Kindred. The South end of the project dead ends at the new Korner Plaza gas station and convenience store. The South end also accommodates the subdivision south of State Highway 46 with access to Kindred by way of a path. We have provided an option on this application that would entail constructing another RRFB pedestrian crossing across State Highway 46 to better connect the south end of the existing path to the mentioned subdivision on the south side of the highway. This option would hinge on the NDDOT's appetite for an RRFB pedestrian crossing in this area.

In the project area, Cass County Road 15 is a two lane rural section with 2-12' driving lanes and 2-6' shoulders. Currently there is a concrete sidewalk on west side of Cass County Road 15 from Dakota St to  $53^{rd}$  St SE, and an asphalt shared use path on the east side of Cass County Road 15 from the Kindred Elementary School to State Highway 46. There are two flashing crossings across Cass County Road 15, one at Spruce St and one at Elm St. However, there are no crossings from Elm St to State Highway 46.

This project most directly benefits subdivision south and east of Kindred, including Newport ridge, Woodlawn estates, and Evergreen lanes.

This project is a joint application between Cass County and the City of Kindred, and when the project is completed, it will greatly improve pedestrian connectivity from the south end to the north end of Kindred.

#### **Highway Department**

Telephone: 701-298-2370 Fax: 701-298-2395 SMB-HWY@casscountynd.gov

#### **Project Cost:**

The Project is estimated to have a total construction cost of \$1,056,162.00 (\$1,091,162.00 including Option 1). See attachment 3 for the Engineers estimate.

- A. 80% Federal = \$844,929.60
- B. 20% Local = \$211,232.40
  - a. Cass County 10% = \$105,616.20
  - b. City of Kindred 10% = \$105,616.20
- C. The Preliminary Engineering and Construction Engineering will be done with Cass County forces, we will not be asking for any reimbursement for this portion of the project.

#### What TA category best fits your project?:

- A. Construction of on-road and off-road trail facilities for pedestrians, bicyclists, and other nonmotorized forms of transportation, including sidewalks, bicycle infrastructure, pedestrian and bicycle signals, traffic calming techniques, lighting and other safety-related infrastructure, and transportation projects to achieve compliance with Americans with Disabilities Act of 1990.
- B. Construction of infrastructure related projects that will substantially improve the ability of students to walk and bicycle to school.
- C. Construction of infrastructure related projects and systems that will provide safe routes for non-drivers, including children, older adults, and individuals with disabilities to access daily needs.
- D. Conversion and use of abandoned railroad corridors for trails for pedestrians, bicyclists, or other non-motorized transportation users.
- E. Construction of turnouts, overlooks, and viewing areas.
- F. Community improvement activities, including:
  - Historic preservation and rehabilitation of historic transportation facilities that are continuing to, or upon rehabilitation, function for their intended transportation purpose;
  - Vegetation management practices in transportation rights of way to improve roadway safety, prevent against invasive species, and provide erosion control;
  - Archaeological activities relating to impacts from implementation of a transportation project; and

#### **Highway Department**

Telephone: 701-298-2370 Fax: 701-298-2395 SMB-HWY@casscountynd.gov

- Streetscape improvements and corridor landscaping.
- G. Any environmental mitigation activity, including pollution prevention and pollution abatement activities and mitigation to:
  - Address storm water management, control and water pollution User prevention or abatement related to highway construction or due to highway runoff, including activities described in 23 U.S.C. 133(b)(11), 328(a), and 329; or
  - Reduce vehicle-caused wildlife mortality or to restore and maintain connectivity among terrestrial or aquatic habitat.

#### **Supporting Data:**

- 1. Is your project part of an identified recreation of transportation plan? If so, explain. Yes. Two planning documents identify the need for this project.
  - 1) The Cass County Comprehensive & Transportation Plan adopted in 2018 identifies the need for continued safety improvements and preservation to existing county facilities.
  - 2) The Cass County Comprehensive Highway & Bridge 5 Year Plan from 2025-2029 identifies the mission as stated "To provide and maintain an efficient, safe, environmentally responsible, and cost-effective county road system that effectively meets the citizen's needs for personal mobility and the movement of freight consistent with the importance of the economy."
- 2. Is your project tied to another project? If so, please explain.

No, this is a standalone project.

3. How does your project fit with similar projects in your community and/or region?

This project will connect with other sidewalks through the City of Kindred, as well as connect existing and future subdivision south of town in this growing community. 10ft wide shared use pathways along county arterials are common practice for Cass County through urban and rural cities.

4. Provide documentation of governmental agencies that are in support of this project. Also, please provide documentation of support, if any, from general public, other groups, and organizations.

This project was endorsed by partner agencies and organizations with an interest in promoting safe transportation alternatives in Cass County, such as the City of Kindred, Kindred School District, and the Kindred Parks and Rec.

#### **Public Accessibility:**

Cass County will be the owner of the project once completed and the public will have access to

#### **Highway Department**

Telephone: 701-298-2370 Fax: 701-298-2395 SMB-HWY@casscountynd.gov

path at all times. Cass County also works with the City of Kindred during winter months to clear snow to keep path accessible.

#### **Matching Funds Provided By:**

Cass County & City of Kindred

#### Will Right of Way for this Project be Needed?

No.

#### Maintenance of this Project Will Be Provided By:

Cass County will take care of any path maintenance, and City of Kindred will take care of clearing snow during winter months.

#### **Environmental Impacts:**

• Land Use - Describe changes or potential changes this project will have upon land use in the vicinity.

This project enhances existing land uses in the vicinity by providing for increased transportation choices between the City's newest housing development, the schools, commercial zones, and the old town area. Increased multi-modal infrastructure and transportation choices are proven to foster higher land values and promote the highest and best uses of undeveloped and underdeveloped land.

• Farmland - If any farmlands are to be used for this project, identify what their present usage is.  $N\!/\!A$ 

- Social Describe the project's impact upon the neighborhood and community. Increasing choices for walking and biking to schools and amenities has broad social benefits. In particular, this project has 1) public health benefits as it expands the network in which one can walk or bike, and 2) promotes equity by enhancing transportation options to access services for those who cannot drive a car.
- Section 4(f) & 6(f) Are there any impacts to Section 4(f) or Section 6(f) properties? No.
- Economic Describe the project's economic impact.

  This project creates opportunities for residents to safely access commercial amenities without having to drive, as the pathway directly connects the Kindred School District and

#### **Highway Department**

Telephone: 701-298-2370 Fax: 701-298-2395 SMB-HWY@casscountynd.gov

Kindred Parks facilities to residential developments south of town. The economic impact of this

is threefold:

- 1. The project will make city amenities more accessible, promoting equity and choice.
- 2. Public investment in facilities that foster more walkable communities increases land value, thus promoting higher quality development.
- 3. Enhanced the City's sustainability through a balanced transportation system, which will lessen the maintenance costs on other facilities.
- Relocation Will this project require the displacement of any people or businesses? No.
- Wetlands Will this project result in fill material being placed in any wetlands? No.
- Floodplain Is this project within a floodplain? No.
- Threatened or Endangered Species Are there any threatened or endangered species in the project vicinity?

  No.
- Cultural Resources Are there any properties on or eligible to be on the National Register of Historic Places in the project vicinity?

  No.
- Hazardous Waste Are there any hazardous waste sites in the area?
   No.

Re: Approval of Proposed Highway Safety Improvement Program (HSIP)

**Projects** 

The North Dakota Department of Transportation (NDDOT) recently solicited applications for annual Highway Safety Improvement Program (HSIP) grants. HSIP is a core Federal-aid program with the purpose to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned roads and roads on tribal lands.

All applicants with projects within Metro COG's planning area are required to submit their applications to Metro COG for review and approval by Metro COG's Policy Board. Three applications were submitted.

#### **HSIP Projects**

- Cass County Proposed roundabout and intersection improvements to County Road 20 and 45<sup>th</sup> Street North
- Fargo Auxiliary Lane on southbound 45th Street at 1-94 interchange.
- Fargo Study to analyze the 22 top urban crash intersections within the City of Fargo as well as 28 other high crash intersections to come up with an infrastructure plan to improve these locations in the future.

See attached applications for additional information on each proposed project.

#### Requested Action:

Recommend approval of the North Dakota HSIP applications as provided in the attachments to the Policy Board.

#### **Highway Department**

Telephone: 701-298-2370 Fax: 701-298-2395 SMB-HWY@casscountynd.gov

#### **Describe Current Safety Issues**

45<sup>th</sup> Street is our most retail commercial corridor within the city. Daily traffic counts range from 42,100 at I-94 to 28,240 near the Fargo Scheels store in the 1500 block of 45<sup>th</sup> Street. The corridor is busy all day long, every day of the year. As such, we have traffic signals controlling intersection right of way every ¼ mile. North of I-94, we have traffic signals at the north ramp with I-94, at 19th Avenue S, 17th Avenue S, 15<sup>th</sup> Avenue S and at 13<sup>th</sup> Avenue S. We run traffic signal cycle lengths of 95 seconds, 110 seconds, and 130 seconds in the peak periods. As much as we try to optimize our traffic signal operations, there undoubtedly are times with vehicles queue up at the intersections. Southbound 45<sup>th</sup> street is a 3-lane cross section roadway with right and left turn lanes at most signalized intersections. There is a desire for southbound vehicles starting at 15<sup>th</sup> Avenue S to stay in the rightmost through lane all the way to I-94 because they wan to use the loop ramp in the southwest quadrant at I-94 to go east on I-94. This driving behavior has led to unbalanced lane utilization in the southbound direction, making the 3 southbound lanes essentially two through lanes and a slow moving, saturated right lane waiting to turn onto eastbound I-94. This long queue of vehicle increases the chances of rear and side collisions from traffic abruptly stopping or changing lanes, and the statistics reflect that. This corridor north of I-94 has consistency been on the high crash intersection list for years and years, most notably at 17th Avenue S (ranked 4th on current high crash list), at 15th Avenue S (ranked 8th), and at the north I-94 ramp intersection (ranked 46th).

#### **Describe Proposed Safety Improvements**

The proposed project would be relatively small in scale but would have tremendous benefits. Simply put, we would free the southbound log jam between 19<sup>th</sup> Avenue S and the I-94 bridge. The plan would be to construct an axillary lane for the southbound traffic between 19th Avenue South and the I-94 bridge, and replace the southbound right turn lane to go west on I-94. By making this minor modification, this would add much needed capacity for a very important short stretch of roadway. The total length of the added lanes is 750', measured from the I-94 bridge to just south of 19<sup>th</sup> Avenue S intersection.

I've attached an example of a similar project we completed in 2017. We made a similar modification on eastbound 32<sup>nd</sup> Avenue S between 39<sup>th</sup> Street and the west I-29 ramp in and the result is that vehicular queues are manageable in this segment, and the crash stats in the eastbound direction have decreased.

These streets are owned by the City of Fargo and NDDOT.

Please refer to the attachments for design details.

## Agenda Item 10

Case Plaza Suite 232 | One 2nd Street North Fargo, North Dakota 58102-4807 p: 701.532.5100 | f: 701.232.5043 e: metrocog@fmmetrocog.org www.fmmetrocog.org

**To:** Transportation Technical Committee

**From:** Paul Bervik, PE, Assistant Transportation Planner

Date: December 6, 2024

Re: NDDOT Urban Grant Program (UGP) Approval of Proposed Project

The North Dakota Department of Transportation (NDDOT) recently solicited applications for the annual grant Urban Grant Program (UGP). UGP provides an opportunity for cities with populations over 5,000 to make transportation infrastructure improvements within core business districts. Improvements are intended to promote multimodal transportation.

All applicants with projects within Metro COG's planning area are required to submit their applications to Metro COG for review and approval by Metro COG's Policy Board. One application was submitted.

#### **UGP Project:**

• Fargo – Reconstruction of 1st Avenue North from 3rd Street to 10th Street is already programmed in the TIP and STIP in 2028. The roadway design will include intersection bulb-outs, reduced drive lane widths, and a center turn lane, which will improve safety along the corridor. The City of Fargo is requesting UGP funding to supplement the design in the furnishing zone along the corridor. This zone is the 2-4-foot-wide zone, located directly behind the curb, and within the intersection bulb-outs. Items included in this zone would be trees, tree grates, decorative streetlights, landscaping, colored & stamped concrete, and street furniture, such as benches, trash receptacles, and bike racks.

See attached application for additional information on the proposed project.

#### **Requested Action:**

Recommend approval of the North Dakota UGP application as provided in the attachment to the Policy Board.

### **General Project Information**

#### Project Description (include location and scope of work)

Reconstruction of First Avenue North, from 3<sup>rd</sup> Street North to 10<sup>th</sup> Street North, is programmed for 2028 for STBG funds. The roadway design will include intersection bulb-outs, reduced drive lane widths, and a center turn lane, which will improve safety along the corridor. The City of Fargo requests UGP funding to supplement the design in the furnishing zone along the corridor. This zone is the 2'-4' wide zone directly behind the curb, and in the intersection bulb outs. Items included in this zone would be trees, tree grates, decorative street lights, landscaping, colored & stamped concrete, and street furniture, such as benches, trash receptacles, and bike racks. This design enhancement will help be a catalyst for improving the economic vitality of this underutilized area of downtown. Economic Development in Downtown is reinforced by improving the look and feel of Downtown's streets. Attached in Appendix B are copies of the project applications that were completed in fall of 2023 for FM Metro COG's use in selection of the projects.

In summary, the request would:

- Improve pedestrian safety by shortening crossing distances, reducing speeds by enhanced streetscape, and providing buffers of trees, plantings and material change between pedestrians and vehicles;
- Provide an improved pedestrian experience to encourage walking and alternative modes of transportation for users of all ages and abilities;
- Help to encourage infill redevelopment of surrounding underutilized properties, such as surface parking lots, which have access to existing utilities and public infrastructure.

#### **Total Project Cost**

\$2,211,596 construction total

#### Amount of Grant Funds Requested (cannot exceed 80% of total project cost)

\$1,789,845 federal, \$421,751 local

### **Competitive Criteria**

1. **Community Need for Project:** Explain why the project is needed including appropriate detail. Include any 100% locally funded components of the project. Documentation of information to support the need such as relevant data, existing and projected conditions, and any related analysis through studies or reports would be appropriate to identify in this section. Attachments such as but not limited to: maps, pictures, other graphics; and supporting data demonstrating the need for the project is encouraged.

The project is needed in order to enhance the vitality of the City's core by improving the pedestrian circulation network and improving the safety of those users.

The City of Fargo's *Downtown InFocus* plan, a comprehensive plan for downtown, included robust public participation component, which included:

- over 50 one-on-one interviews;
- six stakeholder working committee meetings;
- 2,100 unique visitors to the project website;
- 519 completed surveys;
- several discussion forums with elected City Commissioners;
- three public open house events totaling approximately 600 attendees; and
- ten focus group discussions.

One of the major goals resulting from the Downtown InFocus plan is to encourage alternative transportation modes in order to support a walkable, dense downtown. Some of the specific objectives identified to advance that goal include the establishment of a modal street hierarchy (to identifying pedestrian-, bicycle-, and vehicle-focused streets for use in future street design) and the creation of a downtown bicycle network.

Downtown InFocus establishes a street hierarchy, which proposes to include pedestrian enhancements along 1<sup>st</sup> Avenue North, particularly between 4<sup>th</sup> Street North and 7<sup>th</sup> Street North. Providing streetscape enhancements, such as street trees, plantings, benches and color and texture change of surfaces, pedestrians will feel safer and more comfortable having further separation from vehicular traffic.

Furthermore, 1<sup>st</sup> Avenue North provides an important connection east-west to Moorhead, particularly for commuting. Providing an enhanced streetscape will encourage more pedestrians to connect to Downtown from the east.

- 2. **Community Impact of Project:** Describe how the project will offer significant long-term value to the community specifically in addressing the following program objectives (a-f):
  - a) Preserve existing transportation assets

The overall infrastructure project with roadway redesign will maintain roadway capacity and travel time, while improving safety. This project seeks enhancements to increase pedestrian safety and maintain the Downtown experience through use of trees, plantings, curb lines, benches and bike racks.

- b) Ensure safety of all users of the transportation system
  - Safety for pedestrians will be increased by shorter crossing distance at intersections, reducing the amount of time of pedestrian-vehicle conflict; by reduced traffic speeds due to reduction in lane widths and visual cues, such as trees and landscaping, and curb and material changes.
- c) Improve multi-modal transportation options such as walking, bicycling, and public transportation The project seeks to improve walking by increasing safety and the pedestrian experience through streetscape enhancements.
- d) Enhance the economic vitality of the area by providing transportation assets that support: revitalization efforts; development of vacant or underutilized parcels within existing urban areas; and/or redevelopment of established portions of communities
  - Economic Development in Downtown is reinforced by improving the look and feel of Downtown's streets. The project seeks to enhance the safety and pedestrian experience, encouraging more trips by foot and drawing people from connecting areas such as Downtown Moorhead to support Downtown businesses.
  - There are several surface parking lots and other underutilized properties within the immediate vicinity of the project area. Once complete, the improvements and amenities would help to encourage and support the redevelopment of these underutilized properties to higher and better uses.
- e) Support economically sustainable growth, lessening the need for outward expansion of community transportation infrastructure and associated services

This project will support larger efforts to create connections and a more desirable experience Downtown. The types of enhancements and amenities add to the livability of the downtown urban environment and, as a result, promote increased residential density and business activity in the surrounding area. Increased density and infill development within the urban core makes efficient use of existing infrastructure and reduces the demand for outward expansion.

3. Consistency with an LPA Associated Plan: Document linkage between the proposed project and a publicly accepted/adopted plan(s) and/or public involvement process. Clear linkage should be demonstrated between the proposed project and the associated public acceptance/support which would include documenting the reference(s) in the plan and/or public involvement process and attach relevant excerpts. Examples of publicly accepted/adopted plans include but are not limited to: Community Comprehensive Plan; Downtown Master Plan; Neighborhood/Subarea/Corridor Plan; Bicycle/Pedestrian Plan; Housing Plan; Long Range Transportation Plan; Transit Development Plan; and/or Renaissance Zone Plan. A stand-alone public involvement process which demonstrates community support for the specific project is also acceptable and should be documented in the application.

This project will implement initiatives identified in several comprehensive plans that included robust community engagement. Below includes portions that support the request and attached are relevant excerpts from those plans.

#### Go2030 (2012)

- Initiative 1: Bicycle and Pedestrian Infrastructure. Continue to invest in comprehensive pedestrian infrastructure that makes walking a priority by providing pedestrian infrastructure on reconstructed streets.
- Initiative 2: Complete Streets. Providing a continuous network that enables walking and providing more choice about how to move around the City.
- Downtown is identified as a walkable mixed-use center, having high quality infrastructure that supports
  pedestrians, cyclists, cars, and transit and will feature public art and landscaping. Several benefits of walkable
  mixed-use center identified in the Plan include greater economic development potential, stronger sense of
  community, and greater safety.

#### Downtown InFocus (2018)

- Encourage alternative transportation modes in order to support a walkable, dense downtown. Established modal street hierarchy (to identifying pedestrian-, bicycle-, and vehicle-focused streets for use in future street design) and the creation of a downtown bicycle network.
- Goal 5: Complete Streets. Complete streets will be commonplace and encourage trips by foot, bicycle and bus, as well as car. Changing the look, feel and function of streets can shift behaviors to support alternative transportation choices.
  - Downtown InFocus establishes a street hierarchy to inform reconstruction projects, which proposes to include pedestrian enhancements along 1<sup>st</sup> Avenue North, particularly between 4<sup>th</sup> Street North and 7<sup>th</sup> Street North.
  - Prioritize safety for the slowest speeds first, improving pedestrian safety throughout Downtown and retrofit streets to calm traffic.

#### Fargo Transportation Plan (2024)

- Goal: Safety. Improve safety for all roadway users through data-driven design. Fargo takes a safetycentered approach to all infrastructure projects.
- Goal: Complete Streets. Develop a transportation network that provides opportunities for multiple modes

of travel and users of all ages and abilities.

#### Fargo-Moorhead Metropolitan Bicycle & Pedestrian Plan (2022)

- Goal 1: Health and Safety. Transportation systems proactively promote the comprehensive health and wellbeing of all community members through active transportation facilities that equitably connect users to key destinations, including reducing vehicle speeds and prioritizing safety in design investments.
- Within the Pedestrian Improvements section, the plan recommends updating and reconstruction to address safety, accessibility and convenience.
- Within the Design Guidelines section, the plan notes to that along with the physical facilities, projects
  must also consider effects on aesthetic, social, economic and environmental values, needs, constraints
  and opportunities.
- 4. **Project Support of Urban Core/Central Business District:** Projects which directly support the urban core/central business district (CBD) will be given preferential consideration. Identify the project location and how it will support the urban core/CBD. (Attach 8.5" x 11" or 11" x 17" color map depicting project location in relation to urban core/CBD)

Project Location Map and Map of Underground Municipal Utilities are included in Appendix C.

5. **Projects that Maximize the Return on Investment from Public Funds:** Projects which can demonstrate a positive private return on investment of public funds will be given preferential consideration. Examples of this may include but not be limited to increased retail sales, new jobs, and/or new dwelling units anticipated as a direct result of the proposed project.

Click here to enter text.

#### **Existing Conditions**

(information requested in this section may not be appropriate for all project types)

#### **Functional Classification of Roadway**

Minor arterial

#### Cross Section of Roadway (attach graphics depicting current dimensions and key roadway elements)

3 lane roadway with parking on both sides, with 10-12' sidewalks on each side of road.

#### Pavement rating or condition

Very poor condition.

#### Year of Last Federal Investment at this Location

Unknown.

#### When was the current section built?

1st Ave N from 3rd Street to Roberts Street was originally constructed in 1915, then saw maintenance work in 1950, 1959, 1986 and in 2002. The half block on each side of Broadway was reconstructed in 2002 with 10" of doweled concrete pavement.

#### Year last surfaced or received maintenance?

2002. The half block on each side of Broadway was reconstructed in 2002 with 10" of doweled concrete pavement.

#### Lighting

There is existing street lighting along the entire stretch from 3<sup>rd</sup> Street to 10<sup>th</sup> Street, but it needs to be replaced.

#### **Signals**

Traffic signals exist and will need to exist at 5 of the intersections from 3<sup>rd</sup> Street to 10<sup>th</sup> Street.

#### **Crash Rate or Number of Crashes?**

Unknown, but not on the NDDOT High Crash Location Map.

#### Other Known Safety Concerns?

No.

#### Is parking allowed and what type?

Street Parking is allowed on both sides of street, and it is parallel parking, with time zones during the day.

#### Are there any bridges, box culverts, etc. within the project corridor?

No.

#### What is the condition of the existing sanitary sewer, storm sewer, and water lines?

All 3 utility lines will need to be replaced as part of the project. They are very old and have lived to the end of their useful lives.

#### Are there any Access points to adjoining property that present a special concern?

No.

#### Bicycle/Pedestrian Facilities (Sidewalk, shared use paths, bicycle lanes)?

We would focus on the sidewalks for pedestrian activities. As outlined in our Downtown Playbook from the In-Focus Plan, the two parallel avenues, NP Avenue and 2<sup>nd</sup> Avenue N are slated to be the bicycle avenues in this part of downtown Fargo.

#### Is there an existing transit or other public transportation facility or route located within the project limits?

There is. The Ground Transportation Center is situated along 5<sup>th</sup> Street a block south of 1<sup>st</sup> Avenue N, but when they leave the GTC they utilize 1<sup>st</sup> Avenue N to go west on their routes.

#### Does a RR crossing or RR facility exist within the project limits?

No.

#### **Proposed Improvements**

(information requested in this section may not be appropriate for all project types)

#### What are the proposed Improvements (specific scope of work)?

The overall project includes full reconstruction of the roadway, but for this application, we are specifically looking to enhance the overall design simply located in the street furnishing zone. Included in Appendix D are design examples and pictures of what we did on our Main Avenue reconstruction that we completed in downtown Fargo in 2019 and 2020 from the Red River to University Drive.

#### **Proposed Length**

2625'

#### Proposed Cross Section (attach graphics depicting current dimensions and key roadway elements)

The proposed cross section of the roadway will basically match what exists today, three 11' driving lanes, two 8' parking lanes, a furnishing zone 2'-4' wide, and an 8'-10' sidewalk. Refer to Appendix B to see the Downtown In-Focus Playbook for the proposed street cross section.

#### **Proposed Surfacing Type**

10" concrete pavement.

#### Proposed Lighting, if applicable

Decorative street lighting, with 26'-30' poles and LED fixtures.

#### **Proposed Traffic Signals or Pedestrian Beacons**

There will be traffic signals at the locations that existing today; at 4<sup>th</sup> Street, 5<sup>th</sup> Street, Broadway, Roberts, and 10<sup>th</sup> Street.

#### **Proposed Safety Improvements**

The proposed safety improvements would be subtle, narrowing the street from 12' lanes to 11' lanes, and then at the intersections, we would plan on bulbing the curbs out, thus reducing the pedestrian walking distance from curb to curb around 16' total (8' per side).

#### **Proposed Intersection Improvements**

Traffic signals would get replaced, the bulbing out of the curbs would be an intersection improvement.

#### **Proposed Traffic Calming Measures**

The narrower lanes and the bulbing out of the curbs would be considered a traffic calming measure.

#### Will parking be allowed and type?

Yes, on both sides and it will be parallel.

# Will any bridges, box culverts, etc. be built/replaced within the project corridor and how will they be modified?

No.

# Will any private or public utilities, water lines, sanitary sewer, and/or storm sewer lines need to be replaced or worked on with this project? Have private utilities been coordinated with?

Yes, water, sewer and storm sewer will be replaced, and we are beginning discussions with the private utility coordinators as the main CenturyLink building is located on the corridor, at 4<sup>th</sup> Street.

# Are there any access points along the project corridor that need to be addressed for mobility or safety concerns?

No.

#### Will a Sidewalk, shared use path, or biker lane be installed or replaced?

A wide sidewalk will be included on both sides of the avenue.

#### **Proposed ADA improvements**

Yes, we will replace all ADA curb ramps along the corridor.

#### **Proposed transit improvements**

Not really.

#### **Proposed Railroad Crossing Work**

No.

#### **Proposed Aesthetic Improvements**

As stated previously, we are requesting this funding to supplement the design in the furnishing zone along the corridor. This zone is the 2'-4' wide zone directly behind the curb, and in the intersection bulb outs. Items included in this zone would be trees, tree grates, decorative street lights, landscaping, colored & stamped concrete, and street furniture, such as benches, trash receptacles, and bike racks.

#### **Environmental/Cultural Issues on the proposed Projects**

Identify Yes, No, or Unknown for each environmental/cultural issue. If Yes, provide a brief description of the issue in the Comments box.

#### Agricultural, Archeological sites, and/or Historical sites

No.

#### Lakes, waterways, floodplains, wetlands

Nο.

#### Stormwater management

No.

#### **Hazardous materials**

No.

#### **Endangered/threatened/migratory species**

No.

**Section 4(f)** (Refers to the use of <u>publicly owned</u> park and recreational lands, wildlife and waterfowl refuges, and significant historical or archeological sites in transportation project development.)

No.

**Section 6(f)** (Refers to Land and Water Conservation Fund (LWCF) Act - the conversion to other use of lands or facilities acquired with LWCF Act funds and requires replacement of used land with lands of equal value and use.)

No

#### Through/adjacent to tribal land

No.

#### Additional comments on Environmental/Cultural Issues section

N/A

### Miscellaneous Issues of Proposed Improvements

#### Construction Restrictions (migratory bird, local events, etc.)

We will need to coordinate for events on Broadway, and we will plan on having a sidewalk open to access local businesses along the corridor during construction.

**Right-of-Way Required (parcels, owners, relocations, etc.)** (NOTE: It is recommended that local funds be used to acquire right-of-way on the LPA system.)

Unknown, but most likely only temporary construction easements.

#### **Proposed Traffic Control during Construction**

Sidewalks will remain open to access local businesses, but the road will be closed and detoured.

#### **Ineligible Project Items**

None.

### **Cost Estimate**

Itemized Project Cost Estimate (For roadway projects this might include things like preliminary engineering, right-of-way, utilities, construction, construction engineering, bridges, and miscellaneous. For other types of projects include relevant items. Rows can be added as to the following table as necessary).

Item	Total	Federal	State	Local
Please see attached Cost Estimate in				
Appendix E				
Totals				

#### What is the source of the local funds?

Infrastructure Sales Tax and/or Special Assessments.

## Agenda Item 11

Case Plaza Suite 232 | One 2nd Street North Fargo, North Dakota 58102-4807 p: 701.532.5100 | f: 701.232.5043 e: metrocog@fmmetrocog.org www.fmmetrocog.org

**To:** Transportation Technical Committee

From: Paul Bervik, PE, Assistant Transportation Planner

Date: December 6, 2024

Re: NDDOT Urban Regional Highway System (RHS) Approval of Proposed

**Projects** 

The North Dakota Department of Transportation (NDDOT) recently solicited applications for the annual Urban Regional Highway System (RHS) grant. NDDOT's Local Government Division and NDDOT District Offices work with the applicable Local Public Agencies to program improvements based on the available funding. NDDOT conducts an annual solicitation for qualifying projects.

All applicants with projects within Metro COG's planning area are required to submit their applications to Metro COG for review and approval by Metro COG's Policy Board. Six applications were submitted.

#### RHS Projects:

- Fargo Reconstruction of University Drive South from 13<sup>th</sup> Avenue S to 18<sup>th</sup> Avenue S
- Fargo Reconstruction of 10<sup>th</sup> Street North from NP Avenue N to 4<sup>th</sup> Avenue N
- Fargo Reconstruction of University Drive North from 12<sup>th</sup> Avenue N to 19<sup>th</sup> Avenue N
- Fargo Reconstruction of University Drive North from 1st Avenue N to 12th Avenue N
- Fargo Concrete Pavement Repair on 52<sup>nd</sup> Avenue South from Timber Parkway to University Drive S
- Fargo Reconstruction of 19<sup>th</sup> Avenue North from 18<sup>th</sup> Street N to Dakota Drive

See attached applications for additional information on the proposed projects.

#### **Requested Action:**

Recommend approval of the North Dakota RHS applications as provided in the attachments to the Policy Board.

#### **URBAN REGIONAL**

#### **PROJECT SCOPING WORKSHEET**

**Date:** 12-2-24

Priority #: 1

City: Fargo

County: Cass

**Street:** University Drive S – 13<sup>th</sup> Avenue S to 18<sup>th</sup> Avenue S

**Length: 3490'** 

**Proposed Improvement:** Full street reconstruction including water, sewer and storm sewer improvements.

#### Cost Estimate (in \$1,000's)

Preliminary Engineering: 1,220

Construction Engineering: 1,220

ROW: 0

Utility Relocations: 0

Construction Cost (Participating): 26,413

Bridge Cost: 0

Non-Participating Costs: 7,396

Total: 36,249

#### **Existing Road**

Surface Width: 85' near 18<sup>th</sup> Avenue S, 62' near 16<sup>th</sup> Avenue S, 74' near 13<sup>th</sup> Avenue S

Train Speed:

Present Protection:

Proposed Protection:

#### **Purpose and Need Statement**

This roadway was originally constructed in the 1960's and has had a number of asphalt overlays since that time. The roadway has outlived its useful life and is in need of replacement. The plan would be to remove and replace what is currently in place, and we'd plan on matching the 5 lanes north of 17th Ave S and going to 7 lanes south of 17th Ave S. We would replace the existing sidewalks, street lights and traffic signals. We would plan on replacing most of the old clay tile sanitary sewer lines, and rehabbing the existing storm sewer lines. The existing watermain is PVC and would only need gates and hydrants replaced. The purpose and need of the project would be to keep our transportation infrastructure in state of good repair.

#### **Existing Conditions**

When was the current street section built?

1960

#### Has there been any additional maintenance to the street section?

The street was reconstructed as part of the 10<sup>th</sup> Street and University Drive street reconstruction project in the very early 2000's down to 14<sup>th</sup> Avenue S. There have been multiple asphalt overlays on it south of 14<sup>th</sup> Avenue S.

How many driving lanes and turning lanes does the street section currently have and what is the widths of the driving and turning lanes?

There are 5 lanes north of 17th Ave S and 7 lanes south of 17th Ave S, and the driving lanes are 12' each.

If the pavement section is asphalt, is there any alligator cracking, longitudinal cracking, transverse cracking, raveling, bituminous patching or rutting?

NA

If the pavement section is concrete, are there any broken slabs, faulting, bituminous patching, joint spalling, transverse cracking, or longitudinal cracking?

The concrete pavement base is in poor condition, and the asphalt overlay has cracking at the joints of the concrete slabs below. There are also numerous potholes that need hot mix from time to time.

Any existing geometric concerns?

No.

#### Are there any access points to adjoining properties that present a special concern?

Yes, there are several and we plan on addressing those as we complete project development activities.

#### Are there any existing sidewalks or shared use path in place?

Yes, both sides of the street have sidewalks, and we plan on replacing and widening the west side to a 10' wide shared use path, and the other to a 6' sidewalk.

What is the condition of the existing storm sewer?	
Good condition with minimal work anticipated.	
Will any additional storm sewer work need to be done along with this project?	
None anticipated.	
What is the condition of the city's water and sewer line?	
The existing watermain was replaced in the last 20 years, so that is in good condition. The existing sanitary sewer is made of clay tile and would be replaced with this project.	
Will any work have to be done to the city's water and sewer lines along with this project?	
Yes, the sewer line will be replaced with this project.	
Describe the existing lighting system currently in place? What type of standards and luminaires are currently being used?	
40' high highway poles with LED fixtures. The plan would be to replace the poles and reuse the LED fixtures.	
What intersections currently have traffic signals? Are there any locations that have a high accident rate? Are additional turning lanes needed?	
There are traffic signals at 13th Ave S, 15th Ave S, 17th Ave S and at 18th Ave S. Our project would stop before the 18 Ave S intersection. I don't believe there are high crash rate intersections, and we don't plan on adding turn lanes.	th
Remarks:

City: Fargo

County: Cass

**Street:** 10<sup>th</sup> Street N – NP Avenue to 4<sup>th</sup> Avenue N

Length: 1600'

**Proposed Improvement:** Full street reconstruction to include also include sanitary sewer improvements.

#### Cost Estimate (in \$1,000's)

Preliminary Engineering: 1,500

Construction Engineering: 1,000

ROW: 0

Utility Relocations: 0

Construction Cost (Participating): 7,845

Bridge Cost: 0

Non-Participating Costs: 3,370

Total: 13,715

### **Existing Road**

Surface Width: 36'

Surface Type: Concrete

**ADT Present:** 9,093

**ADT Year: 2022** 

#### **On-Street Parking Situation:**

Existing: <u>None</u> One Side Both Sides Angle Parallel

Proposed: <u>None</u> One Side Both Sides Angle Parallel

#### **Proposed Improvements**

Travel Way Width: 12' lanes

ADT Design: 12,219

Design year: 2045

Present Protection:			
Proposed Protection:			

Design Speed: 30 mph

**Purpose and Need Statement** 

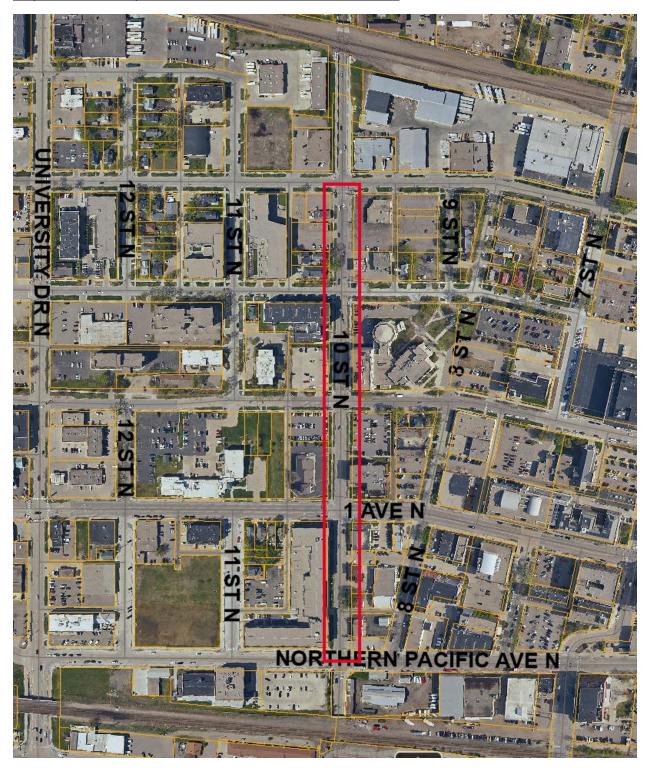

To replace a pavement that has lived its useful life and to improve both vehicular and pedestrian safety along this important corridor in north Fargo.
Existing Conditions
When was the current street section built?
1986.
Has there been any additional maintenance to the street section?
Yes, the block from 3 <sup>rd</sup> Avenue N to 4 <sup>th</sup> Avenue N was overlayed with asphalt in 2009.
How many driving lanes and turning lanes does the street section currently have and what is the widths of the driving and turning lanes?
Current roadway is a 3-lane roadway. All lanes are 12' wide lanes.
If the pavement section is asphalt, is there any alligator cracking, longitudinal cracking, transverse cracking, raveling, bituminous patching or rutting?
NA
If the pavement section is concrete, are there any broken slabs, faulting, bituminous patching, joint spalling, transverse cracking, or longitudinal cracking?
The current section is concrete, and there are broken slabs, faulting, joint spalling all throughout the corridor.
Any existing geometric concerns?
No.
Are there any access points to adjoining properties that present a special concern?
No.
Are there any existing sidewalks or shared use path in place?
There are existing sidewalks on both sides of the street. We will complete spot repairs as necessary.
What is the condition of the existing storm sewer?
Good condition with minimal work anticipated.

Will any additional storm sewer work need to be done along with	this project?
It is unknown at this time, but will be evaluated as part of the design	ŋn.
What is the condition of the city's water and sewer line?	
The existing sanitary sewer line is clay tile and gunit, so it will be ge watermain is PVC, so no work is anticipated.	tting replaced with this project. The existing
Will any work have to be done to the city's water and sewer lines	along with this project?
Yes, most of the existing sewer line will be replaced.	
Describe the existing lighting system currently in place? What typused?	pe of standards and luminaires are currently being
The existing lighting was installed in 2015 and consists of 20' high clighting will not be replaced as part of the project.	lecorative poles with LED fixtures. The existing
What intersections currently have traffic signals? Are there any loadditional turning lanes needed?	ocations that have a high accident rate? Are
There are four traffic signals on the corridor, but the project won't 4 <sup>th</sup> Avenue N. The intersection of 10 <sup>th</sup> Street and 1 <sup>st</sup> Avenue N is a ways to correct that. Lastly, we don't plan on adding turn lanes.	
Remarks:	
City Engineer:	Date:

Note: Please attach a map showing location and extent of the project, detailed cost estimate, and any additional supporting documents.

District Engineer:

#### **URBAN REGIONAL**

#### **PROJECT SCOPING WORKSHEET**

Date: 12-2-24

Priority #: 3

City: Fargo

County: Cass

Street: University Drive N – 12<sup>th</sup> Avenue N to 19<sup>th</sup> Avenue N

**Length:** 5280'

**Proposed Improvement:** Full street reconstruction to include water and sewer improvements.

#### Cost Estimate (in \$1,000's)

Preliminary Engineering: 1,500

Construction Engineering: 1,500

ROW: 0

Utility Relocations: 0

Construction Cost (Participating): 15,108

Bridge Cost: 0

Non-Participating Costs: 6,357

Total: 24,465

### **Existing Road**

Surface Width: 36'

Surface Type: Concrete

**ADT Present: 8510** 

ADT Year: 2022

#### **On-Street Parking Situation:**

Existing: <u>None</u> One Side Both Sides Angle Parallel

Proposed: <u>None</u> One Side Both Sides Angle Parallel

#### **Proposed Improvements**

Travel Way Width: 11' lanes

ADT Design: 8880

Design year: 2045

No. of Lanes: 2 lanes with on-street bike lane

Roadway Width: 36'			
Maximum Curve: NA			
Maximum Grade: NA			
Min. R/W Width: 100'			
<u>Ri</u>	ght of \	<u>Nay</u>	
Will Additional ROW or easement be acquired?		Yes	<u>No</u>
ROW acquisition by:		City	NDDOT
Has any ROW easements been acquired since 7-1-72:		<u>Yes</u>	No
ROW Condemnation by:		City	NDDOT
Est. No. of occupied family dwelling to be displaced?	0		
Est. No. business to be displaced?	0		
	<u>Impact</u>	<u>ts</u>	
Will there be any additional Impacts (Cultural and Envi	ironmen	ntal Resources):	None anticipated
Will there be any impacts to 4(f) or 6(f) properties: No	)		
Airports: No			
Public Hearings: No			
Environmental Classification (Cat-Ex, EA, EIS): Docume	ented Ca	t-Ex anticipated	
<b>Transportation Enhancements</b> : Shared use path on we spot repairs on both.	st side, s	sidewalk on east	t side. The plan would be to compelte
Intermodal: No			
Pedestrian Needs: No			
Highway/Railroad Crossings: No			
RR Name:			
No. of Crossings:			
No. of Tracks & Type of Crossing:			
Daily Train Movements:			
Train Speed:			
Present Protection:			
Proposed Protection:			

Design Speed: 30 mph

**Purpose and Need Statement** 

To replace a pavement that has lived its useful life and to improve safety along this important corridor in nort Fargo.
Existing Conditions
When was the current street section built?
The current section was built in 1991.
Has there been any additional maintenance to the street section?
In 2022 the Street Department we added a 2" asphalt overlay north of 17 <sup>th</sup> Avenue N.
How many driving lanes and turning lanes does the street section currently have and what is the widths of the driving and turning lanes?
Current roadway is a 2-lane roadway with 1 left sided on-street bike lane. All lanes are 12' wide lanes.
If the pavement section is asphalt, is there any alligator cracking, longitudinal cracking, transverse cracking, raveling, bituminous patching or rutting?
NA
If the pavement section is concrete, are there any broken slabs, faulting, bituminous patching, joint spalling, transverse cracking, or longitudinal cracking?
The current section is concrete, and there are broken slabs, faulting, joint spalling all throughout the corridor.
Any existing geometric concerns?
No.
Are there any access points to adjoining properties that present a special concern?
No.
Are there any existing sidewalks or shared use path in place?
There is an existing shared use path on the west side and a sidewalk on the east side. We will complete spot repairs as necessary.
What is the condition of the existing storm sewer?
Good condition with minimal work anticipated.
Will any additional storm sewer work need to be done along with this project?

It is unknown at this time, but will be evaluated as part of the design.

#### What is the condition of the city's water and sewer line?

The existing sanitary sewer line is clay tile, so it will be getting replaced with this project. The existing watermain on the north half of the project is asbestos cement pipe, so it will be getting replaced with this project. The watermain on the south half is PVC, so no work is anticipated on that stretch.

#### Will any work have to be done to the city's water and sewer lines along with this project?

Yes, most of the existing sewer line will be replaced, as will the watermain need to be on the north half of the project.

# Describe the existing lighting system currently in place? What type of standards and luminaires are currently being used?

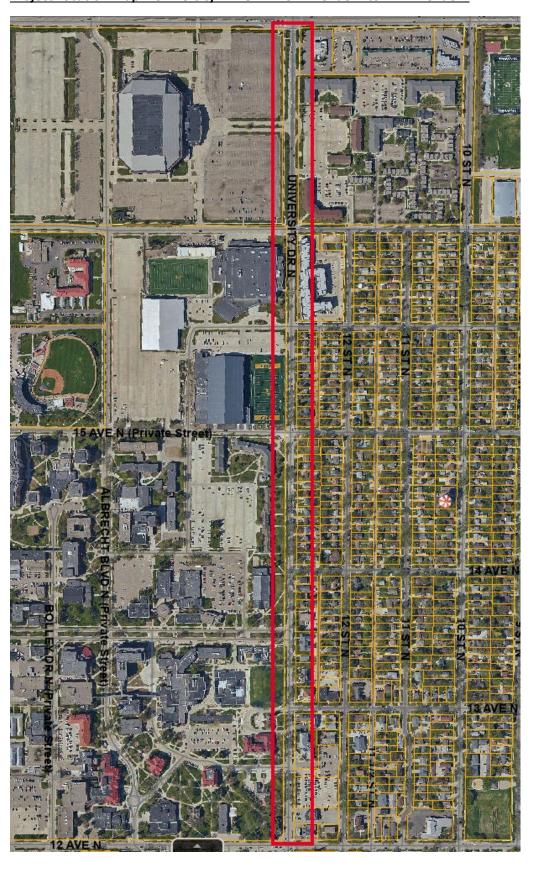

The existing lighting between 12<sup>th</sup> Avenue N and 17<sup>th</sup> Avenue N was installed in 2014 and it consists of 16' high decorative poles and LED fixtures. The existing lighting between 17<sup>th</sup> Avenue N and 19<sup>th</sup> Avenue N was installed in 2014 as well but is 20' stainless steel poles with highway style LED fixtures. The existing system will not be replaced.

# What intersections currently have traffic signals? Are there any locations that have a high accident rate? Are additional turning lanes needed?

There are five traffic signals on the corridor, but the project won't include going into the intersections of 12<sup>th</sup> Avenue N or 19<sup>th</sup> Avenue N. There is a high crash rate intersection at 19<sup>th</sup> Avenue N, but that is getting an HSIP project in 2026 to correct the deficiencies. We don't plan on adding turn lanes.

Remarks:	
City Engineer:	Date:
District Engineer:	Date:
Note: Please attach a man showing location and extent of the	a project, detailed cost estimate, and any additional supporting documents

Project Location Map – University Drive N – 19<sup>th</sup> Avenue N to 12<sup>th</sup> Avenue N

METROCOG Fargo-Moorhead Metropolitan Council of Governments

Case Plaza Suite 232 | One 2nd Street North Fargo, North Dakota 58102-4807 p: 701.532.5100 | f: 701.232.5043 e: metrocog@fmmetrocog.org www.fmmetrocog.org

**To:** Transportation Technical Committee

From: Michael Maddox, AICP

Date: December 6, 2024

Re: 2050 MTP - Amendment #1

Metro COG adopted the update to its Metropolitan Transportation Plan entitled "Metro 2050: Transportation Moving Ahead" in September 2024. Since then, it had come to the attention of staff that transit projects utilizing FTA 5307, FTA 5310, and FTA 5339 must be included within the document. This was unbeknownst to Metro COG staff, as it was a new rule brough on by the transition to a Transportation Management Area (TMA).

Like Metro COG, MATBUS receives a direct suballocation of the aforementioned transit funding sources. In order to address the issue, Metro COG would like to append the projects that were provided by MATBUS and attached to this memo. Also attached is the first page of federal circular, dated November 1, 2024, that provides the requirement to include the projects. A weblink to the circular posted on Metro COG's website is provided below.

https://www.fmmetrocog.org/application/files/8117/3350/2844/Agenda\_Item\_1 2\_Attachment\_1\_-C9070.1H-Circular-11-01-2024.pdf

#### **Recommended Action:**

Recommend approval of the inclusion of the attached 5307, 5310, and 5339 transit projects as an appendix in the 2050 Metropolitan Transportation Plan.

### **CIRCULAR**

FTA C 9070.1H

November 1, 2024

# Subject: ENHANCED MOBILITY OF SENIORS AND INDIVIDUALS WITH DISABILITIES PROGRAM GUIDANCE

- PURPOSE. This circular is a reissuance of guidance on the administration of the transit assistance program for seniors and individuals with disabilities under 49 U.S.C. 5310 and guidance for the preparation of grant applications. This revision incorporates provisions of the Bipartisan Infrastructure Law, enacted as the Infrastructure Investment and Jobs Act (IIJA) (Pub. L. 117-58 (2021) and includes the most current available guidance as of the date of publication. To the extent this circular is inconsistent with changes in any statute or regulation, the statute or regulation will supersede this circular. This circular is in effect as of November 1, 2024.
- 2. <u>CANCELLATION</u>. This circular cancels Federal Transit Administration (FTA) Circular 9070.1G, "Enhanced Mobility of Seniors and Individuals with Disabilities Program Guidance and Application Instructions," dated July 7, 2014.
- 3. AUTHORITY.
  - <u>a.</u> Federal Transit Laws, title 49, United States Code, Chapter 53.
  - b. Title 49 CFR 1.91.
- 4. <u>WAIVER</u>. FTA reserves the right to waive any requirements of this circular to the extent permitted by Federal law or regulation.
- 5. <u>FEDERAL REGISTER NOTICE</u>. In association with the publication of this circular, a Federal Register notice will be published.
- 6. <u>AMENDMENTS TO THE CIRCULAR</u>. FTA reserves the right to update this circular to reflect changes in other revised or new guidance and regulations that undergo notice and comment without further notice and comment on this circular. FTA will post updates on the <u>FTA website</u>. The website allows the public to register for notification when FTA issues Federal Register notices or new guidance. Please visit the website and click on "Subscribe to Email Updates" for more information.
