

METROPOLITAN PROFILE 2023

Annual Report for the Fargo-Moorhead Metropolitan Area

PREPARED BY
METROCOG
FM REGIONAL TRANSPORTATION PLANNING ORGANIZATION

Adopted:
1-2nd Street N, Suite 232
Fargo, ND 58102
www.fmmetrocog.org

DRAFT

The preparation of this document was funded in part by the United States Department of Transportation with funding administered through the North Dakota and Minnesota Departments of Transportation, the Federal Highway Administration and the Federal Transit Administration. Additional funding was provided by the Minnesota Department of Transportation and through local contributions from the governments of Fargo, West Fargo, Horace, and Cass County in North Dakota; and Moorhead, Dilworth, and Clay County in Minnesota. The United States government and the states of North Dakota and Minnesota assume no liability for the contents or use thereof.

This document does not constitute a standard, specification, or regulation. The United States Government, the states of North Dakota and Minnesota, and the Fargo-Moorhead Metropolitan Council of Governments do not endorse products or manufacturers. Trade or manufacturers' names may appear therein only because they are considered essential to the objective of this document.

Dear Interested Persons, Stakeholders, Jurisdictions, Agencies and Organizations

The Fargo-Moorhead Metropolitan Council of Governments (Metro COG) is pleased to present the Metropolitan Profile 2023 (Metro Profile), a document previously known as the Surveillance and Monitoring Report for the Fargo-Moorhead Metropolitan Area. The data presented within this Profile pertains to the 2022 calendar year (January 1, 2022 through December 31, 2022).

Metro COG began producing the Metropolitan Transportation Surveillance and Monitoring Report in 1981. Over time, this document has taken various forms in order to ensure compliance and compatibility with relevant surface transportation authorization. Under Fixing America's Surface Transportation Act (FAST Act), the Metro Profile has become an essential performance management tracking tool.

The profile is structured to document and monitor the following:

- (a) Changes to the transportation system;
- (b) Demographic and socioeconomic conditions;
- (c) Changes in land use patterns and/or development patterns;
- (d) Accuracy of projections/assumptions made within the Metropolitan Transportation Plan (MTP); and
- (e) Implementation of the Transportation Improvement Program (TIP).

The Metro COG Policy Board believes this data to be critical to both accurately represent the state of the transportation network and to maintain and to implement elements of the Metropolitan Transportation Planning Program, such as the TIP, MTP, and regional Travel Demand Model (TDM).

It is Metro COG's goal to continue to enhance the ease and accuracy of collecting and reporting metropolitan transportation data; as well as improving accessibility to this information for all interested persons and stakeholders.

Any questions or comments on the content of this document should be directed to Metro COG. Supporting plans, studies, and other transportation data for the Fargo-Moorhead Metropolitan Area is available by contacting Metro COG (701.532.5100), by email at metrocog@fmmetrocog.org, or visiting Metro COG's website at www.fmmetrocog.org.

Chuck Hendrickson
Chair, Metro COG Policy Board

INTRODUCTION

Who is Metro COG?

The Fargo-Moorhead Metropolitan Council of Governments (Metro COG) is both the designated Council of Governments (COG) and Metropolitan Planning Organization (MPO) for the greater Fargo-Moorhead Metropolitan Area. An MPO is a transportation policy-making organization comprised of representatives from local government and transportation authorities. The Federal Surface Transportation Assistance Act of 1973 requires the formation of a MPO for any urbanized area with a population greater than 50,000. MPOs ensure that existing and future expenditures for transportation projects and programs are based on a comprehensive, cooperative, and continuing planning process, known as the “3-C” process.

What is the Metro Profile?

The 2023 Metropolitan Profile is separated into five chapters, each of which focuses on trends affecting the development patterns and transportation network of the Fargo-Moorhead MPA. Together the chapters provide a comprehensive snapshot of the conditions and trends affecting the metro area based on 2022 data (or the most recent data available).

The chapters are grouped into two sections:

Community Profile

Transportation

The Transportation section encompasses topics focused on the:

Roadway System

Freight & Interstate Travel

Bicycle & Pedestrian Network

Local & Regional Transit

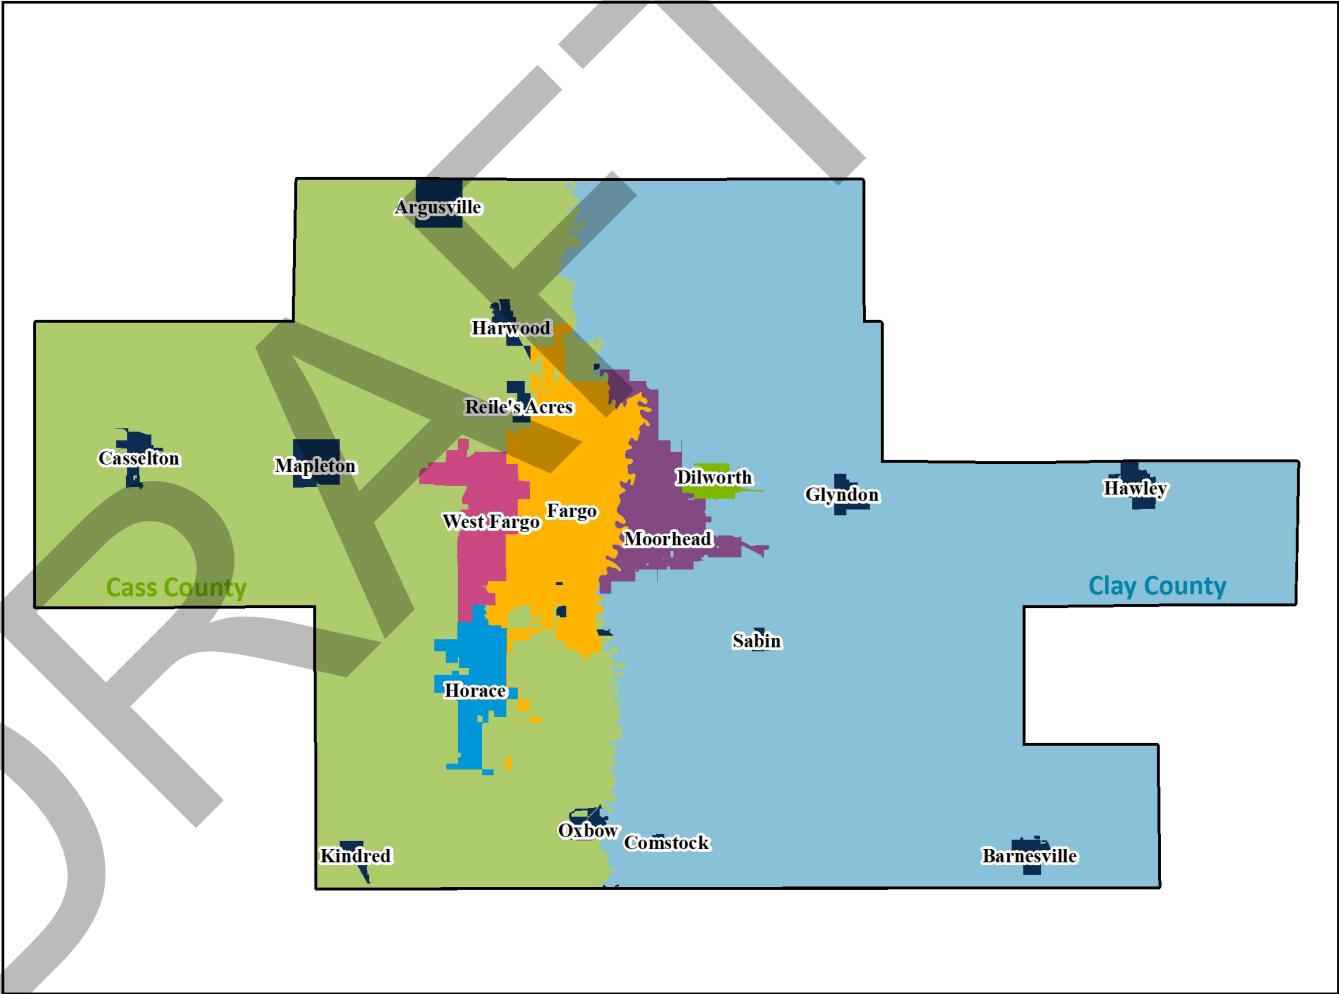

Within each of these chapters are metrics that Metro COG tracks from year to year. These metrics are used to track progress towards goals set in the Metropolitan Transportation Plan (MTP). The goals in the MTP are developed with Metro COG’s vision, mission, and core functions in mind.

JURISDICTIONS

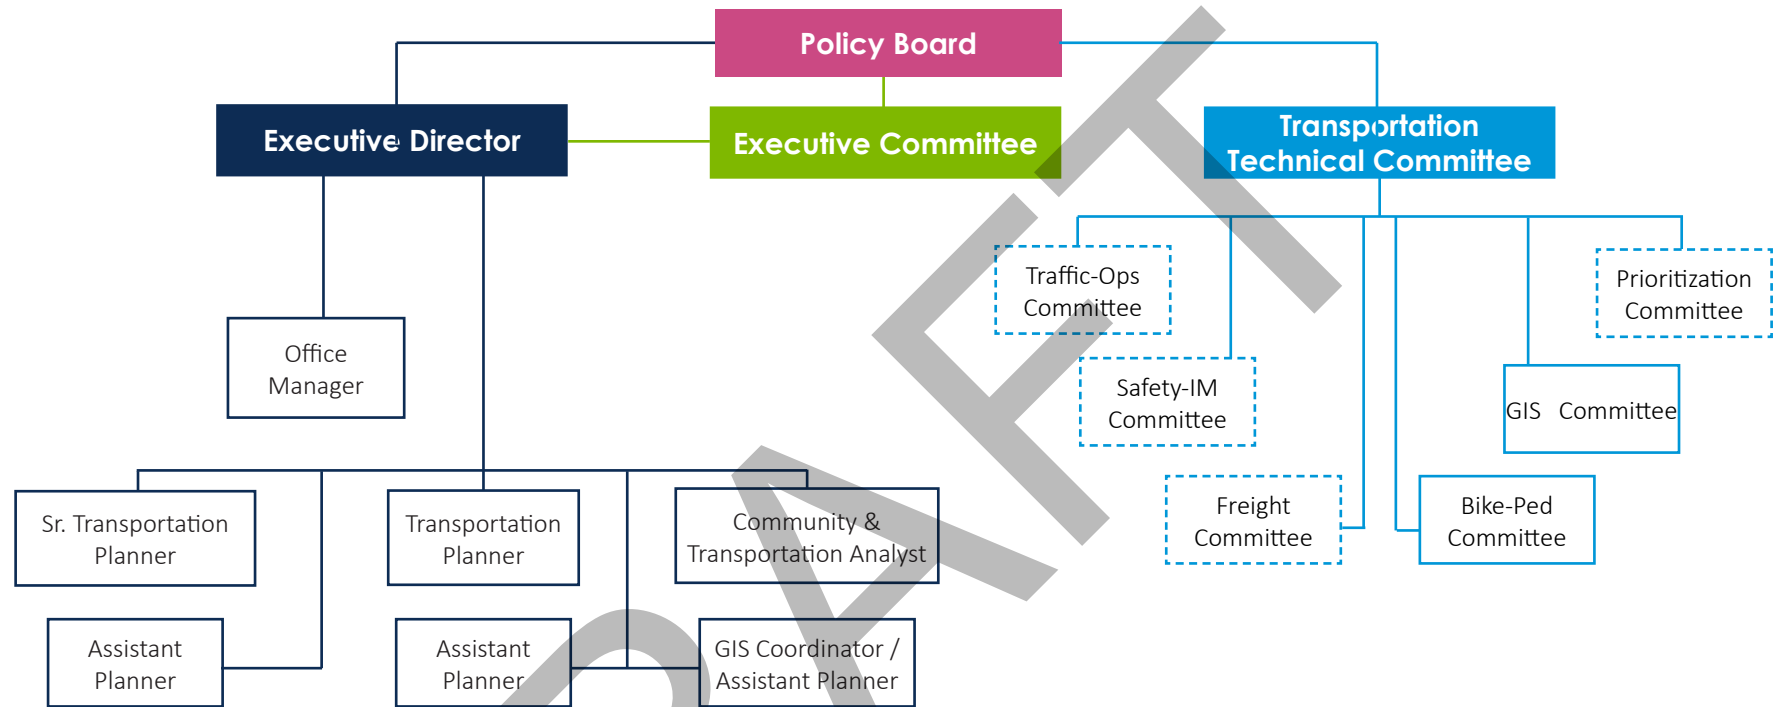

CASS COUNTY 1,768 SQ. MILES
FARGO 51.18 SQ. MILES
WEST FARGO 16.41 SQ. MILES
HORACE 12.68 SQ. MILES
CASSELTON 2.18 SQ. MILES
HARWOOD 1.31 SQ. MILES
MAPLETON 3.91 SQ. MILES

CLAY COUNTY 1,053 SQ. MILES
MOORHEAD 22.32 SQ. MILES
DILWORTH 3.22 SQ. MILES
BARNESVILLE 1.96 SQ. MILES
GLYNDON 1.59 SQ. MILES
HAWLEY 2.448 SQ. MILES

NOTE: Jurisdiction acreage was calculated from the GIS information provided by each jurisdiction. Associate Jurisdictions are depicted in navy, while the Member Jurisdictions are color coded by pink, purple, greens, bright blues, or yellow.

VISION AND MISSION

Vision Statement

Provide quality, proactive regional planning services for a changing society.

Mission

- 1. Harmonize the activities of federal, state, and local agencies**
- 2. Render technical assistance**
- 3. Encourage public participation in the development of the area**

Core Functions

- Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency.
- Increase the safety of the transportation system for motorized and non-motorized users.
- Increase the security of the transportation system for motorized and non-motorized users.
- Increase accessibility and mobility for people and freight.
- Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns.
- Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight.
- Promote efficient system management and operation.
- Emphasize the preservation of the existing transportation system.
- Improve the resiliency and reliability of the transportation system and reduce or mitigate storm water impacts of surface transportation.
- Enhance travel and tourism.

EXECUTIVE SUMMARY

Post COVID-19 Pandemic Trends

In early 2022, the metro experienced peak total infections due to the Delta and Omicron Variants of the COVID-19 Virus. In 2022, the number of people working from home decreased, showing the Metro's return to normalcy. The economy saw growth trends during 2022 as it neared pre-pandemic levels. This can be seen through Hector International Airport reporting its second highest passenger volume of all time.

Demographic Highlights

The Fargo-Moorhead Metropolitan Statistical Area (MSA) has continued to experience faster population growth than the country as a whole. In 2022, proportionally, much of this growth is estimated to have occurred within Horace, Fargo, and Dilworth. The population of the metro remains younger and more educated than national averages thanks to the number of higher education institutions in the area. However, the metro showed signs of aging, but at a much slower trend than the national average. Furthermore, the metro also continues to look more diverse despite having lower rates of foreign-born individuals and those speaking a language other than English at home. Even though the MSA is diversifying, regional trends are slower than what is occurring nationally.

Economic Recovery

The unemployment rate in the Metro continues to decrease. In 2022, the Fargo-Moorhead Metro area was ranked #2 in the nation for lowest unemployment rate and saw a slight increase within the labor force. Despite the FM Area observing increased median household incomes, the region fell below the national average. Furthermore, the regional poverty rate increased, nearing the national average.

Transportation

Vehicle miles traveled (VMT) in the region decreased from 2021, and has not caught up to pre-pandemic levels. VMT per capita rates in the Metro area are lower than 2021 and are still below the national average.

The Metro area welcomed two Amazon Warehouses at the end of 2021. In 2022 construction continued on a series of four buildings for the Dakota Commerce Center and Marvin Windows completed a major expansion. Despite new distribution center construction, both truck average daily traffic (ADT) and pounds of air cargo declined.

Amtrak's Empire Builder saw a significant increase in passenger ridership and a decline of their on-time performance in 2022. Hector International Airport also saw an improvement in both air passengers and enplanements.

Strava, a data source we previously used, is no longer available. The number of bicycle and pedestrian activity is slightly lower this year. Metro COG saw a slight decrease in the number of non-motorized crashes but the amount of serious injuries nearly doubled.

MATBUS ridership has increased in Fargo and West Fargo. Ridership is up for paratransit and Metro Senior ride as well. Ridership in Moorhead, however has decreased. In 2022, the ridership from local university students is up tremendously. Like 2021, driver shortages have required the reduction or suspension of service.

TRANSIT

Projects

Route and Service Changes - Due to Driver Shortage (January, 2022)

- ❑ MATBUS service end time was changed from 11:15pm to 9:45pm
- ❑ TapRide service to the Fargo Industrial Park was suspended on Saturday
- ❑ Route 32W was temporarily eliminated
- ❑ Route 33 was reduced to 10 minute frequency all day
- ❑ Routes 11, 13, and 14 were reduced from 30 minute frequency to 60 minute frequency
- ❑ Route 15 was reduced from 15 minute frequency to 30 minute frequency, with an additional vehicle on route from 10:30am to 5:30pm to provide additional service during peak service times

Marketing

- ❑ Created a new commercial to show the benefits of riding MATBUS during winter weather
- ❑ Promoted transit to new riders during Try MATBUS Week
- ❑ Provided LinkFM service during the Street Fair, Scandinavian Festival, Frostival, Celtic Festival, and the Trollwood Mainstage Musical
- ❑ Offered Get Your Can on the Bus promotion during Earth Week
- ❑ Educated college students at back to school events in the Holiday Lights Parade
- ❑ Sponsored a Red Hawks and Fargo Force game

Fares

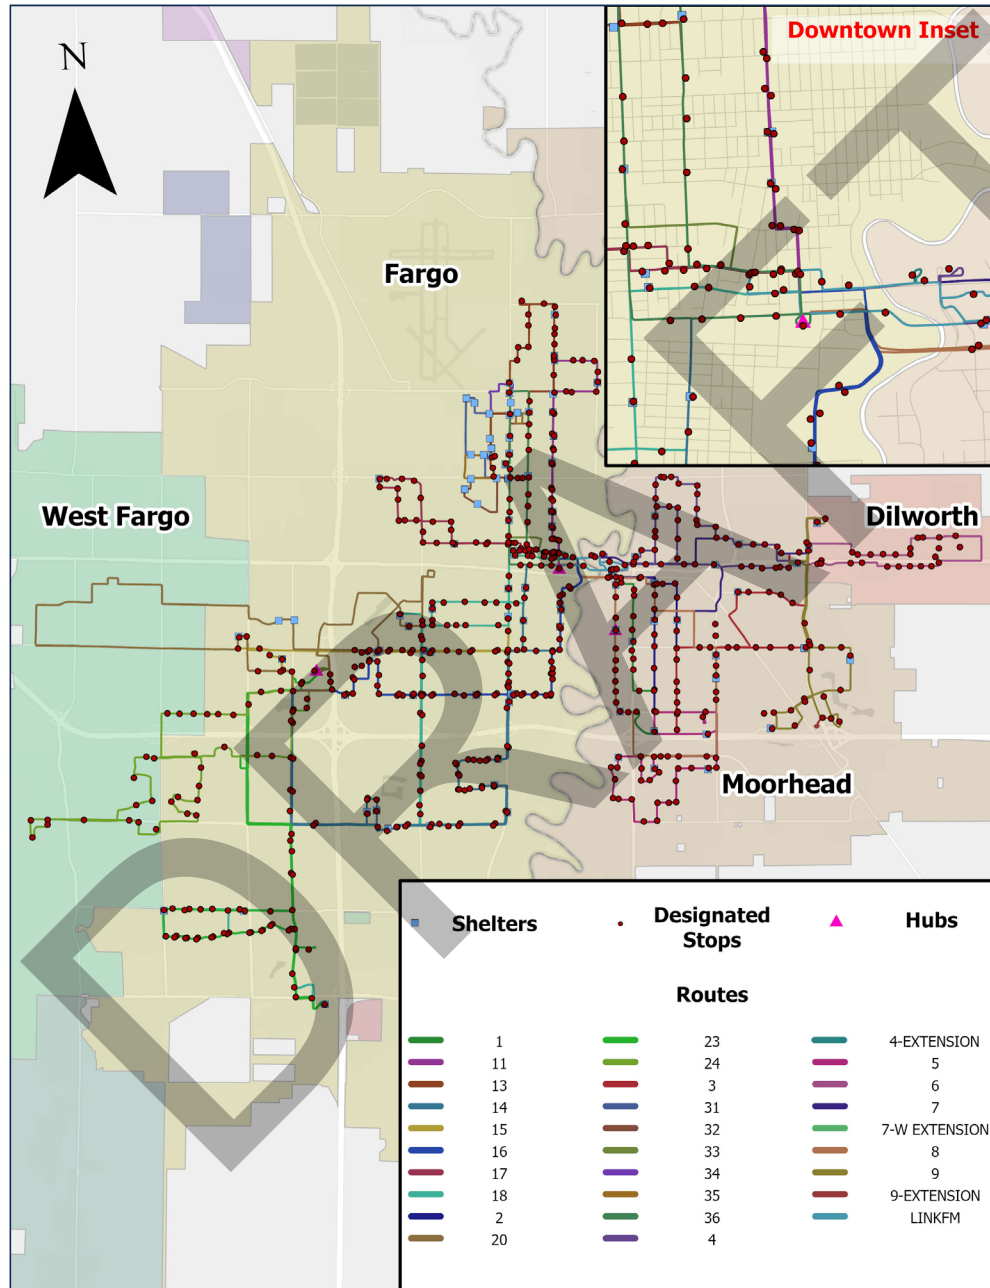

- ❑ Implemented the MATBUS Connect system, allowing riders to pay with their account balance through a MATBUS Connect card or the MATBUS Connect app
- ❑ Monthly fare rates were increased from \$40.00 to \$42.00 (adult) and \$26.00 to \$27.00 (discount) and monthly cycles were increased from 30 to 31 days
- ❑ The downtown business pass was changed to the business pass to allow other area business to purchase discounted bus passes for their employees. Fare was increased from \$22.50 for 30 days to \$27 for 31 days.
- ❑ College Semester Pass was changed from \$45 per semester to \$60 for 120 days (Non U-Pass Students)
- ❑ Established a new Paratransit Sunday Fare for the general public who are not ADA Paratransit eligible of \$25.

Studies

- ❑ Began Transit Reorganization Study
- ❑ Updated Safety Plan in July 2022
- ❑ Updated to Transit Asset Management Plan in October 2022.
- ❑ Completed the FTA Triennial Review (covering four years due to pandemic)

TRANSIT
