

METRO PROFILE 2024

Annual Report for the Fargo-Moorhead Metropolitan Area

PREPARED BY
METROCOG
FM REGIONAL TRANSPORTATION PLANNING ORGANIZATION

Adopted: xx-xx-2024
One 2nd Street N, Suite 232
Fargo, ND 58102
www.fmmetrocog.org

The preparation of this document was funded in part by the United States Department of Transportation with funding administered through the North Dakota and Minnesota Departments of Transportation, the Federal Highway Administration and the Federal Transit Administration. Additional funding was provided through local contributions from the governments of Fargo, West Fargo, Horace, and Cass County in North Dakota; and Moorhead, Dilworth, and Clay County in Minnesota. The United States government and the states of North Dakota and Minnesota assume no liability for the contents or use thereof.

This document does not constitute a standard, specification, or regulation. The United States Government, the states of North Dakota and Minnesota, and the Fargo-Moorhead Metropolitan Council of Governments do not endorse products or manufacturers. Trade or manufacturers' names may appear therein only because they are considered essential to the objective of this document.

Dear Interested Persons, Stakeholders, Jurisdictions, Agencies and Organizations

The Fargo-Moorhead Metropolitan Council of Governments (Metro COG) is pleased to present the 2024 Metropolitan Profile: Annual Report for the Fargo-Moorhead Metropolitan Area. This document is previously known as the Surveillance and Monitoring Report for the Fargo-Moorhead Metropolitan Area. **The data presented within this Profile pertains to the 2023 calendar year (January 1, 2023 through December 31, 2023).**

Metro COG began producing the Metropolitan Transportation Surveillance and Monitoring Report in 1981. Over time, this document has taken various forms in order to ensure compliance and compatibility with relevant surface transportation authorization, such as the Infrastructure Investment and Jobs Act (IIJA). The Metro Profile has become an essential performance management tracking tool.

The profile is structured to document and monitor the following:

- (a) Changes to the transportation system;
- (b) Demographic and socioeconomic conditions;
- (c) Changes in land use patterns and/or development patterns;
- (d) Accuracy of projections/assumptions made within the Metropolitan Transportation Plan (MTP); and
- (e) Implementation of the Transportation Improvement Program (TIP).

The Metro COG Policy Board believes this data to be critical to both accurately represent the state of the transportation network and to maintain and to implement elements of the Metropolitan Transportation Planning Program, such as the TIP, MTP, and regional Travel Demand Model (TDM).

It is Metro COG's goal to continue to enhance the ease and accuracy of collecting and reporting metropolitan transportation data; as well as improving accessibility to this information for all interested persons and stakeholders.

Any questions or comments on the content of this document should be directed to Metro COG. Supporting plans, studies, and other transportation data for the Fargo-Moorhead Metropolitan Area is available by contacting Metro COG (701.532.5100), by email at metrocog@fmmetrocog.org, or visiting Metro COG's website at www.fmmetrocog.org.

Duane Breitling
Chair, Metro COG Policy Board

Ben Griffith

INTRODUCTION

Who is Metro COG?

The Fargo-Moorhead Metropolitan Council of Governments (Metro COG) is both the designated Council of Governments (COG) and Metropolitan Planning Organization (MPO) for the greater Fargo-Moorhead Metropolitan Area. An MPO is a transportation policy-making organization comprised of representatives from local government and transportation authorities. The Federal Surface Transportation Assistance Act of 1973 requires the formation of a MPO for any urbanized area with a population greater than 50,000. MPOs ensure that existing and future expenditures for transportation projects and programs are based on a comprehensive, cooperative, and continuing planning process, known as the “3-C” process.

October of 2023, Metro COG became a designated Transportation Management Area (TMA). A TMA is an urbanized area with a population of greater than 200,000 people that is designated by the US Secretary of Transportation. With the new TMA status, Metro COG will have a stronger role in setting priorities for transportation improvement projects.

What is the Metro Profile?

The Metro Profile is an annual report that provides a snapshot of the Fargo-Moorhead metro area based on data from the previous year. The Metropolitan Profile is separated into five chapters, each of which focus on trends affecting the development patterns and transportation network of the Fargo-Moorhead MPA. Together the chapters provide a comprehensive snapshot of the conditions and trends affecting the metro area based on 2023 data.

The chapters are grouped into two sections:

Community Profile

Transportation

The Transportation section encompasses topics focused on the:

Roadway System

Freight & Interstate Travel

Bicycle & Pedestrian Network

Local & Regional Transit

Within each of these chapters are metrics that Metro COG tracks from year to year. These metrics are used to track progress towards goals set in the Metropolitan Transportation Plan (MTP). The goals in the MTP are developed with Metro COG’s vision, mission, and core functions in mind.

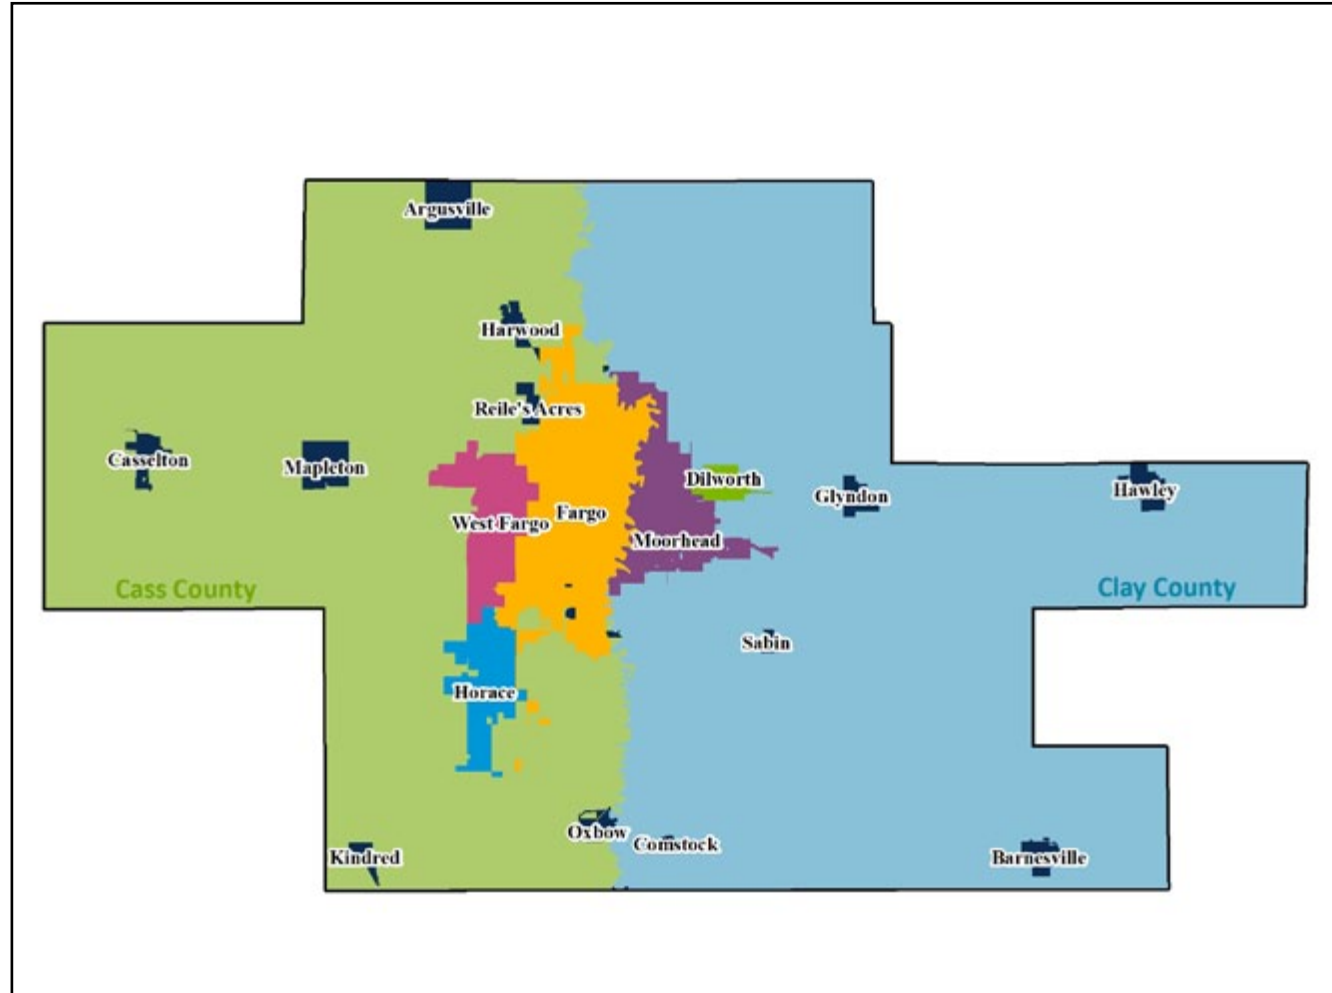

JURISDICTIONS

MEMBER

- CASS COUNTY 1,768 SQ. MILES
- FARGO 51.18 SQ. MILES
- WEST FARGO 16.41 SQ. MILES
- HORACE 12.68 SQ. MILES
- CASSELTON 2.18 SQ. MILES
- HARWOOD 1.31 SQ. MILES
- MAPLETON 3.91 SQ. MILES

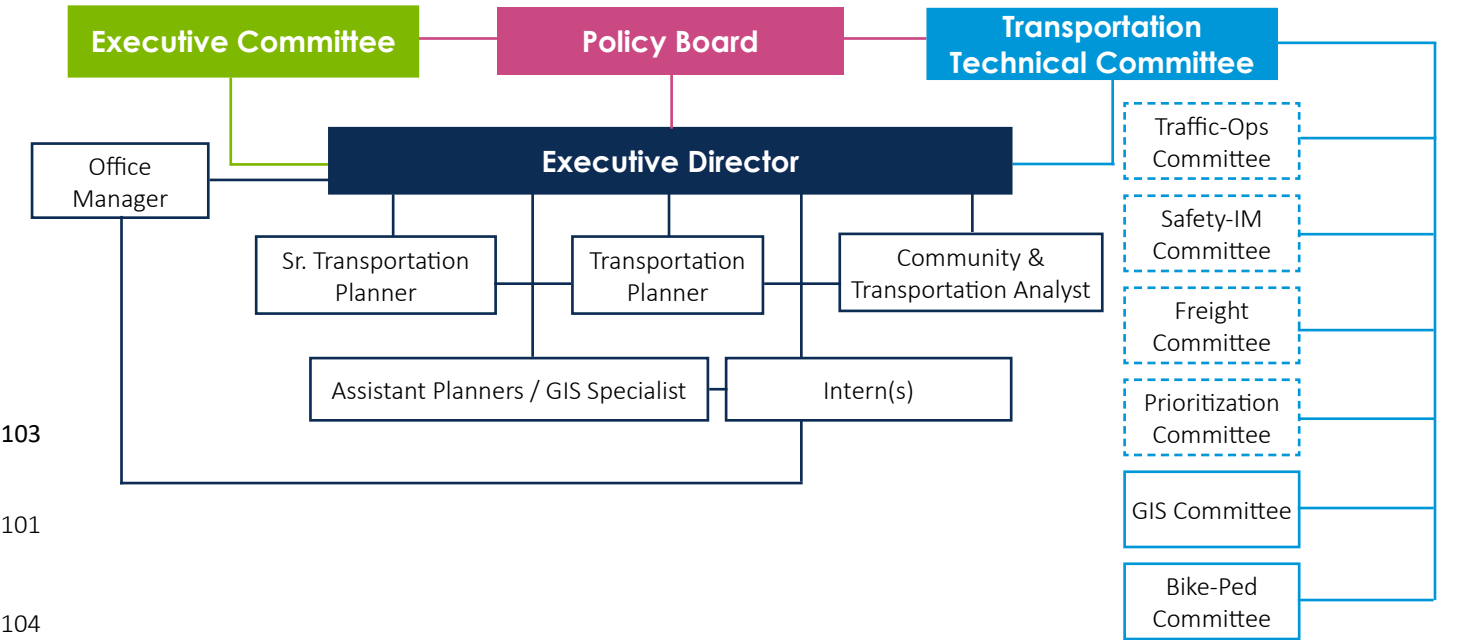

ASSOCIATE

- CLAY COUNTY 1,053 SQ. MILES
- MOORHEAD 22.32 SQ. MILES
- DILWORTH 3.22 SQ. MILES
- BARNESVILLE 1.96 SQ. MILES
- GLYNDON 1.59 SQ. MILES
- HAWLEY 2.448 SQ. MILES

***2023 INFORMATION WAS USED IN 2022 METRO PROFILE**
 NOTE: Jurisdiction acreage was calculated from the GIS information provided by each jurisdiction. Associate Jurisdictions are depicted in navy, while the Member Jurisdictions are color coded by pink, purple, greens, bright blues, or yellow.

VISION AND MISSION

Vision Statement

Provide quality, proactive regional planning services for a changing society.

Mission

- 1. Harmonize the activities of federal, state, and local agencies**
- 2. Render technical assistance**
- 3. Encourage public participation in the development of the area**

Core Functions

- Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency.
- Increase the safety of the transportation system for motorized and non-motorized users.
- Increase the security of the transportation system for motorized and non-motorized users.
- Increase accessibility and mobility for people and freight.
- Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns.
- Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight.
- Promote efficient system management and operation.
- Emphasize the preservation of the existing transportation system.
- Improve the resiliency and reliability of the transportation system and reduce or mitigate storm water impacts of surface transportation.
- Enhance travel and tourism.

EXECUTIVE SUMMARY

The economy in the Metro continued to see growth trends during 2023 as it neared pre-pandemic levels. This can be seen through Hector International Airport reporting its highest passenger volume of all time.

Demographic Highlights

The Fargo-Moorhead Metropolitan Statistical Area (MSA) has continued to experience faster population growth than the country as a whole. In 2023, much of this growth is estimated to have occurred within Horace. The population of the metro remains younger and more educated than national averages thanks to the number of higher education institutions in the area. The metro also continues to look more diverse, with despite having lower rates of foreign-born individuals and those speaking a language other than English at home. Even though the MSA is diversifying, regional trends are slower than what is occurring nationally.

Economics

The unemployment rate in the Metro continues to decrease. In 2023, despite seeing a slight decrease in the labor force, the Fargo-Moorhead Metro area was ranked #2 in the nation for lowest unemployment rate (tied with Sioux Falls, SD). Even though the FM Area observed increased median household incomes, the region is still below the national average. The regional poverty rate increased, nearing the national average.

Transportation

Vehicle miles traveled (VMT) and vehicle miles traveled per capita both increased in 2023. However, the Metro area's average commute time decreased from 2022.

The Metro area welcomed two Amazon Warehouses at the end of 2021 and in 2023 construction continued a series of four buildings for the Dakota Commerce Center. The area saw an increase in truck average daily traffic and an improved truck travel time reliability index. However, air cargo continued to decline.

Amtrak's Empire Builder increased their on-time performance and saw a significant increase in passenger ridership in 2023. Hector International Airport also saw an improvement in both air passengers and enplanements. 2023 was Hector International Airport's busiest passenger year on record.

Data collected from Metro COG's pedestrian counters shows a drop in activity this year, however bicycle activity increased. Metro COG saw a significant decrease in the number of non-motorized crashes but the number of both; serious injuries and fatalities, increased.

MATBUS ridership has continued to increase in all jurisdictions. Ridership is up for paratransit and Metro Senior ride. Overall, ridership from local university students has increased; however, ridership from MSUM and NDSCS has decreased. MATBUS was able to increase some service, however, like 2021 and 2022, driver shortages have continued to hinder service.

TRANSIT

Overview

Total MATBUS passengers in 2023

1,295,317

Change from year previous

+4.1%

Driver shortages have continued to affect MATBUS operations, however, MATBUS was able to extend previously shortened operating hours to 10:15pm. MATBUS has continued to see an increase in ridership since the Covid 19 pandemic.

Passengers in 2023

Fargo/West Fargo	854,493	+2.09%
Moorhead/Dilworth	374,928	+9.03%
Paratransit	57,545	+3.83%
Metro Senior Ride	8,351	+5.28%

University Ridership

NDSU	321,537	+8%
MSUM	18,154	-5%
Concordia	12,807	+18%
M State	13,188	+62%
NDSCS	304	-13%

TRANSIT

Projects

Route and Service Changes - Due to Driver Shortage (January, 2023)

- MATBUS service end time was changed from 9:45 pm to 10:15 pm
- Route 2 service was reduced to 30 minutes during weekday afternoons
- Route 13 reduced to 60-minute service all day
- Route 15 :00 trip during peak hours was discontinued
- Route 15 added an additional bus leaving the GTC at :30 on weekdays from 10:30 am - 5:30 pm
- Route 11 & 14 service increase; odd hours have two trips from 7:15 am - 5:45 pm
- Route 13 returned to 30-minute service
- Route 36 discontinued (same service as Route 13)
- Route 18 was adjusted to no longer travel west of 47th Street S, increasing the route's on-time performance

Marketing

- Promoted transit to new riders during Try MATBUS Week
- LinkFM service during the Street Fair, Scandinavian Festival, Frostival, Celtic Festival, Pangea, and Trollwood Mainstage Musical
- Offered 'Get Your Can on the Bus' promotion during Earth Week
- Educated college students at back to school events
- Participated in the Holiday Lights Parade
- Sponsored a RedHawks and Fargo Force game
- Holiday ridership campaign called 'Season of Giving' providing a free ride with the donation of a non-perishable food item
- Partnered with YWCA for 'stuff the bus'

Studies

- Continued Transit Reorganization Study
- Updated Safety Plan in August 2023
